HUGE BUDGET FOR HIGH SCHOOL DISTRICT

CONTRACT FOR JEFF GYM RENOVATION GIVEN S. F. FIRM

Auto Crashes Into Palm Tree On Mission St.

Jack Calabrese's story is an unfortunate one, and if it hadn't been for this palm tree that got in the way, it might have had a happier ending.

Calabrese, 46, of 248 San Fernando Way, was traveling south on Mission street Wednesday morning about 1:30 o'clock when just in front of Jefferson High, his car swarved, jumped the island, and crashed into an awaiting palm tree, tearing it completely out of the ground.

The car received damages somewhat, but Calabrese escaped with a slight cut on his head.

Officer Denins Sheehy, who investigated the accident, decided the palm tree wasn't the only one potted, and hauled Calabrese off to jail on a charge of driving while intoxicated.

Calabrese was released on $525 bail, and was scheduled to appear Thursday in South San Francisco Municipal Court to answer to charges.

NOT ONLY does alcohol and gasoline not mix, but as the above picture shows us, neither does alcohol and palm trees. Jack Calabrese, of 248 San Fernando Way, was driving the vehicle down Mission street Wednesday morning when it swerved, jumped the island, and smacked into a recently planted palm tree, knocking it completely over. Police arrested the Daly City man, and charged him with driving while intoxicated. Photo by Frankhouse.

Reason Given For Selection Of Route "B"

Reason for the State Highway Commission's selection last week of Route "B" for the lateral freeway connecting Junipero Serra boulevard to Skyline boulevard was given further explanation to The Record this week by a spokesman for the division in San Francisco.

J. A. Spence, assistant district engineer in charge of design, said that not only is Route "B" superior to that of the other proposed route A-1-D as far as design and construction are concerned, but that it is some $2,000,000 cheaper to build.

"Had Route A been selected, it would have meant that we would have had to make deep cuts into the ground at various points, and this would have involved the risks of landslides. Some of these cuts would have been more than 100 feet deep," Spence commented.

He elaborated further: "Also, additional first costs would have been greater. Local service would not have been as good; that is spacing of ramps and points of access could not have been laid out as conveniently," he said.

Now that the hotly-contested route is settled, when will the

JUHS DISTRICT BUDGET HITS $3,300,000 MARK!

Trustees of the Jefferson Union High School District at a special meeting Friday night approved a $3,373,000 tentative budget for the 1961-62 school year, establishing an all-time high for an operating budget.

After a series of meetings in which exhaustive page-by-page studies were made of a proposed budget, a tentative budget was agreed on. However, the budget can still be studied further and changed somewhat before its final adoption on or about August 1.

The tentative budget now goes to the County Superintendent's office for study. In late June, the trustees will adopt a publication budget—which may be exactly as the one adopted Friday night—or it may have changes, and then a final budget is to be adopted in early August following a public hearing on it.

The $3,373,000 proposed budget is an all-time high for the district, being $154,000 over the present one of $3,219,000.

The main reason why the budget is higher is a simple one. The district plans to spend more. They plan to spend $2,973,000, or more than $400,000 over the $2,515,000 they spent for the fiscal year ending June 30.

Reason for spending more money this coming year is an anticipated increase in enrollment of 653, including regulars, home instruction, point one program, summer school and adult evening program.

This has required hiring 18 more teachers, along with the rehires for a record teaching and administrative staff in the district of 220, opening of two new high schools, and anticipated capital outlay.

In 1960-61, the district put out $1,491,000 in teachers' salaries. This coming year $1,788,000 will go for teachers' salaries, or an increase of $297,000.

Library Fines Up Beginning July 1

Beginning July 1, fines at both branches of the Daly City library will be increased to 5 cents per day and 10 cents per day, according to City Librarian Samuel Chandler.

On that day, increases will go from 2 cents per day to 5 cents per day for fines on 14-day books, seven-day books, periodicals, pamphlets, and mounted pictures.

Increased from 5 cents per day to 10 cents per day in fines will be the following materials: art reproduction, phonograph records, inter-library loans and state library loans.

Chandler also disclosed that he is declaring a moratorium from June 26 to July 1, in which there will be no fines on overdue books. He urges all

Callan Park Name Changed To Westboro

Callan Park is no longer.

From now on the controversial proposed housing development, which lies south of Daly City, will be known as Westboro.

Why the change in name? The answer is simple.

Thomas Callan, one of the owners, explains it this way. "Callan Park is a subdivision name, and we gave it such a name in the beginning since we believed we would either be part of the City of Daly City or the City of South San Francisco.

"Now, of course, we're going to develop in the county, so we wanted to give the tract a name of distinction. A name in which the development could stand out by itself, so, we decided on the name of Westboro."

Final map on the proposed development was submitted Tuesday to the County Board of Supervisors for their approval which is expected.

A developer has the right to change the name of his subdivision if he desires up until the time he submits his final map.

When the supervisors approve the map, it will be sent to the Hall of Records in Redwood City, where it—along with the new name—will be recorded and filed.

LIONS INSTALL NEW OFFICERS AT DINNER-DANCE

Officers for the 1961-62 year for the Daly City Colma Lions Club were installed Saturday evening at a dinner-dance held at the New Southern Restaurant in South San Francisco.

Assuming their duties were John Putkey, president; Henry Weibel, first vice president; Ray Logan, second vice president; Howard Voldman, third vice president; Del Wilson, treasurer; George Petropoulos, tail twister; Gil Westoby, lion tamer; and Howard Voldman, bulletin editor.

The evening's activities were arranged by Ray Logan, Ray Charette and Ray Lagomarsino.

Daly City Developing Young Population Look

Daly City may be 50 years old this year, but for the purposes of the Bureau of Census, it is considered a "young" city with 58 per cent of the city's estimated 45,000—or slightly more than half—in the 18-64 range.

In dramatic contrast to this finding, Daly City's population shows that only 4.3 per cent are 65 years and over. This is something to be impressed by, when you take similar statistics which were done for all the county's cities, showing our sister city, Burlingame with 13.4 per cent of her 24,000 persons in the 65 and over category.

These figures recently released by the Bureau on the county's age characteristics of 1960 show some startling facts.

Some cities have much larger proportions of their populations in the younger age groups than others. In Pacifica, 46.6 per cent of the population is under 18, while in Burlingame only 25.3 per cent is in this age group. In Daly City, 37.6 per cent of the population is in the under 18 group. Most of the peninsula's cities range from 34.6 to 34.7 per cent of their population in the under 18 category.

There are also large differences between cities in the proportion of the population 65 years old and over. Burlingame is the highest with 13.4 per cent, and Pacifica is the lowest with 2.3 per cent. Redwood City and San Mateo are close to the county average, with 8.0 per cent and 8.1 per cent, respect-

(Continued on Page 2)

Hot Day Brings New High In Water Intake

Last Wedneday's scorching 100-degree temperature sent Daly City's water consumption soaring to 9,845,000 gallons for a 24-hour period, an increase of more than double that consumed during a "normal" comparable period of time, also setting an all-time high for the amount used in a period of 24 hours.

Normal consumption, according to City Engineer William Chapman, is approximately 4,500,000 gallons daily for Daly City.

Last Wednesday's consumption record exceeded that previously set on August 11, 1960, when the city's pumping stations were called upon to pump 7,170,000 gallons, and the temperature was only in the 70's.

Chapman explained that last Wednesday's new high in water consumption covers that used for drinking, cooking, on lawns, and the like.

Four People Hurt In Two-Car Crash

A two-car collision Tuesday afternoon at Mission and Bismark streets sent four persons to the hospital for treatment of major injuries.

The accident happened at 2.40 p.m., as Concha Ransom, 39, housewife, 1302 Southgate, was going north on Mission street, and her car collided with a car being driven by Donlee J. McSween, 21, a student, of 424 Hillside boulevard, who was going west on Bismark and crossing Mission.

Also injured was Irene Ransom, age not known, of 1302 Southgate, a passenger in the Ransom vehicle; and Jeanette Williams, 27, of San Francisco, a passenger in McSween's car.

The foursome were sent to Junipero Serra Hospital for treatment.

SF Contractor Gets Approval To Do Jefferson Hi Gym Work

Adam Arras & Son of San Francisco have been selected by trustees of the Jefferson Union High School District to do alterations on the Jefferson High gym at a total cost of $343,907.

Arras' total bid was the lowest of six submitted to the board, who held a special meeting Friday evening to open all submitted bids.

The total amount of bids ranged from a low of $343,907 to a high of $421,363. The bids consisted of three parts. The base bid, which takes in work which falls within the state program, and in which the state department of finance provides the money—and two alternate bids on work which does not fall within the state program, and consists mainly of maintenance, which comes from district funds.

The state has set aside some $333 toward the renovation of the gym, and hence, must approve the bid and release the money to the district before a contract may be awarded, whereas with the alternate work, only approval by the trustees is needed since it comes from district sources.

Alternate bid No. 1 ranged from $16,874 to $21,200. Arras' bid here was $18,852. Work under this bid includes repair and replacing downspouts (piping from gutters), repairing of steel sash (windows in the gym), removing a wall in the upstairs exercise room, putting in a new fire hose and extinguishers, a stairway into the present solarium, and rewiring the fire alarm system.

Bids for work to be done under alternate No. 2 ranged from $4,515 to $6.000. Arras' bid here was for $4,710. Under this alternate he is to add another exit from the balcony at the swimming pool.

Arras' base bid was $320,345. Called for here is the installation of new shower and locker facilities under the present gym, and conversion of the present locker and shower rooms into exercise rooms.

Dist. Supt. Edward Morgan was authorized by the board to sign the appropriate contracts when they are ready. Morgan explained getting the okay from the State Department of Finance on the base bid was merely "administrative approval."

Work on the renovation of the gym is expected to start between July 1 and July 10. The work is expected to take approximately one year to complete.

ASK LOCAL MEN TO GROW BEARDS

Men of Daly City this week have been given an excuse to put away their razors and display their virility with the opening of a beard growing contest which will be judged during the Golden Anniversary Celebation, October 7-14.

Prizes will be awarded in two divisions, according to Jack Green, chairman of the event. There will be one division for city employees and another for the general public.

In the city employees division, there will be a first and second prize for best beard and a prize for the most unique beard.

In the open division, trophies will be awarded for the fullest beard, the most distinctive beard and the most unique beard.

Councilman Frank Pacelli, executive chairman of the celebration, said that participation in the contest will be on a voluntary basis with no penalties imposed on those who for business or other reasons can't give up their daily shaving routine.

Pacelli also announced that the contract for providing street decorations for the celebration has been awarded to the Paramount Flag Company of San Francisco.

The company will supply flags, banners and pennants lines to decorate Mission street, Knowles avenue, School street, Alemaney boulevard, the Westlake Shopping Center, the Skyline Shopping Center, City Hall and the War Memorial Community Center.

They will be up about a month before the celebration.

Pacelli added that he has asked the flag company to provide a standardized price schedule for decorations that may be obtained by the merchants who want to decorate their places of business.

PART of the crowd who helped celebrate Westlake's 10th birthday. 5,485 pieces of cake and 400 gallons of coffee were served free to visitors of the shopping center last Saturday.

LYNETTE FISHEL, Miss Daly City, looks in vain for some evidence that Fred Martin of the Chamber of Commerce has given up his daily shave in preparation for the beard growing contest being held in conjunction with the Daly City Golden Anniversary Celebration, October 7-14. She warns him he has a long way to grow to catch up to Vincent De Bono, (left), of the city recreation department. Prizes will be awarded for the fullest, most distinct and most unique beards.

HOW TO SCORE in Fiesta competition is the subject occupying attention of Peninsula garden club members attending a recent San Mateo County Garden Center workshop at which experts Architect Eric Clough (left), fair and fiesta manager William Wilson (center) and George Kelley offered pointers. Women representing some 30 garden clubs from Menlo Park to Daly City are (l. to r.) Mrs. Richard Hunter, Daly City; Mrs. F. Dow Grant, San Mateo; Mrs. George Dombroski, Redwood City; Mrs. F. Dow Grant, San Mateo; Mrs. George Dombroski, Redwood City; Mrs. Richard T. Berg, San Mateo (chairman of Fiesta amateur division) and Mrs. Charles Kunz of Burlingame. The amateurs have completed plans for participation in the 27th annual Fiesta Aug. 4-12.

Callan Park Accepted Into Sewer District

Callan Park is officially in the North San Mateo County Sanitation District.

The agreement between the district and Callan Park Water District was unanimously approved by the directors at their regular meeting Monday.

The agreement says nothing about established rates, but it does state what the proposed housing development must pay in costs. Callan Park must pay all costs of construction of sewage facilities, inspection costs, maintenance facilities, cost of construction of the Mussel Rock sewage plant, and other sewage costs that may arise.

The district also stipulated in the agreement that after Mussel Rock sewage plant was constructed, it reserves the right to terminate the agreement.

Present at the meeting were owners Michael and Thomas Callan, Jr., co-partner Bert Williams, and the firm's civil engineer, T. V. Tronoff.

Directors approved the abandonment of portions of Kelly avenue and "E" streets in Colma, as requested by a cemetery association.

Held over preparation of the budget for 1961-62 until the next meeting.

Held over approving the Panorama Heights agreement until another meeting.

TEAMWORK is needed when the steer wrestler swoops down on his quarry in perfect timing as his assistant, the hazer, holds the animal in position for the jump. Months of practice and experience are behind these contestants and their mounts at the Redwood City rodeo July 2, 3 and 4, where a split second of misjudgment in approach can send the steer wrestler hurtling over the animal's horns or beneath his hazer's horse. If all proceeds on schedule here, a few seconds will see the field judge's flag drop sharply, signalling time.

Route "B"

(Continued from Page 1)

State get around to building the much-needed lateral?

Spence added a note of gloom here. He said that depends on the availability of funds. He concluded that actual construction is "several" years away.

Library Fines

(Continued from Page 1)

those with overdue books to return them during this period..

He revealed that both libraries will begin servicing persons living in nearby unincorporated areas with 7,000 books provided by the county, beginning July 1. They are more partial to heavy clay soils, however, unless you plan to water them occasionally. They abhor standing water at their feet, but like their share of moisture.

They may be too rangy for the small, tightly planted garden, but in wide open spaces and in a sunny, out of the way corner, they are shrubs that deserve your attention now.

9 Girl Scouts To Make Outing

Nine Intermediate Girl Scouts from troop 27 sponsored by Holy Angels Parish, will enjoy a 3-day outing June 26-28 at the summer place of the Molinari family near Sebastopol.

Mrs. Ernest Molinari, leader for this 6th grade troop, will accompany the girls.

The youngsters have a lot of fun in store swimming, hiking, cooking, and working towards their adventure badge. They will also learn about the use of the compass. The Girl Scouts are working towards their first class requirements.

These Scouts have their homemaking badge and have already attended two years of day camp. They are now ready for overnight stays in the great outdoors.

Mrs. Conquita Fratto will assist Mrs. Molinari during the outing. Senior scout, Marsha Ojakian, will act as program aide to the younger scouts. Marsha is from Ship 13 in the Daly City-Colma area.

DC Developing

(Continued from Page 1)

ively.

The youthful element of the county's population can be explained in another way—in the fertility ratio (the number of children under five years old for each 1,000 women 15 to 49 years old.)

The ratio for the county is 463, slightly below the state figure of 472. San Francisco's ratio is 339. Pacifica has the highest ratio with 703 children under 5 for every 1,000 women in the child-bearing group, and Hillsdale the lowest with 259.

Daly City, thanks to the Westlake development, has a fertility ratio of 767.

Generally, the highest ratios are found in the northern part of the county where large subdivisions of moderately-priced housing has developed over the past few years.

An interesting exception to all of this is the recently incorporated city of Half Moon Bay (1,957 population) which has a fertility ratio of 617, and appears to have retained a high birth rate as one of its rural characteristics. The lowest ratios seem to be found in well established high-income areas such as Hillsborough, Atherton and Woodside.

San Mateo County is also getting younger, according to census statistics. With 444,387 population accredited, only 6.7 per cent are 65 and over, 36.3 per cent are under 18, with 56.9 per cent — slightly over half again — are in the 18-64 age category.

The way the San Mateo County Planning Commission explains it, it does not look like elementary school enrollment will be depressurized, at least in the northern part of the county. High fertility rates in these areas indicate that school enrollments will be swelled a few years hence.

Cities with the highest growth rates tend to have the highest proportions of children in their populations, as well as the highest fertility ratios. Cities with lower growth rates, with many expensive homes, or with high rates of apartment buildings seem to produce fewer children, the commission concludes.

CUPS NOT BRASS; BUT GOLD PLATED

They weren't brass cups after all, but gold-plated ones instead, that were presented to several of the graduating eighth graders from Colma Upper last week by Trustee Joseph Lewkowitz.

This error resulted from a misunderstanding in exactly the type of award that was to be offered.

New, ready to freeze pops keep hot, tired youngsters happy on long summer afternoons. Cool and frosty, these new pop bars come in convenient see-through packets that serve as a mold for freezing the delicious fruit flavored liquid and as a no-drip wrapper for eating. These economical summer refreshers come eight to a package in lemon-lime, orange, grape and cherry—flavors popular with children.

Ready to freeze pop bars can be stored conveniently in the grocery cabinet until ready to freeze and eat. There's no mixing and no need to use precious ice cube trays . . . just slip them into the freezing compartment of the refrigerator, placing them on the bottom or against the wall.

When the pop bars are frozen, tear off an individual pop, open the top and slip the ice stick partially out of the wrapper.

Morning is greeted in the Canadian Rockies from the grounds of Jasper Park Lodge on glacial-fed Lac Beauvert in Jasper National Park. In the background is towering glacier-clad Mount Edith Cavell, one of the scenic attractions of the Canadian Rockies. FNS

BUDDLEIAS OFFER STRIKING BLOOMS; COME IN COLORS

Call them Buddleias, Butterfly Bushes or Summer Lilacs. In each case, you'll have a leg to stand on.

Botanically, they are Buddleias. But they do attract butterflies and their bloom resembles a Lilac of sorts—hence the common names which any nurseryman will recognize.

Whatever you call them, these unusual shrubs will provide some striking summer blooms for your garden. They are extremely fast growing and ideal for a quick, informal flowering boundary. Their open structure and gray-green foliage have a certain grace, and the long terminal spikes of bloom in various colors have enough eye appeal to keep anyone happy.

They are primarily summer shrubs, however, being deciduous or mostly so, and best in any case when cut right to the ground after the summer-fall show of color. They will come back again with the spring in a remarkable surge of new growth that makes you wonder where it all comes from.

As with many shrubs of humble origin, the Butterfly Bush has undergone some striking changes at the hands of hybridizers. And the California Association of Nurserymen today lists a good selection of improved forms, mostly named varieties.

You find them in white, red, pink, blue and purple, carrying such names as Charming, Fascinating, White Cloud and Ile de France. That's a long way from the primarily Lilac-colored blooms of not so many years ago.

Buddleias thrive in sunny locations and in most any soil.

USE A KNIFE

Skilled cabinet makers use a knife when scoring lumber or plywood for cutting. The blade follows a straight edge more accurately, eliminates errors in the variations of thickness of pencil lines.

DIRECTOR Thomas Carr Howe of the California Palace of the Legion of Honor in Lincoln Park, San Francisco, doesn't believe there is a farmhouse around that can compare in price to the one depicted in the painting he is holding. This is Van Gogh's "Farmhouse in Provence," valued at $250,000 and one of the great 19th century impressionist and post-impressionist paintings from the collection of Mrs. Mellon Bruce of New York City that will be exhibited in the Palace of the Legion of Honor June 15 through July 30.

LAW IN ACTION

UNFINISHED CRIMES

The law punishes attempted as well as completed crimes. Thus attempted murders or robberies are themselves crimes.

Sometimes a criminal cannot carry out his plans: He tries and fails to extort money from an undercover policeman; a pickpocket reaches into an empty pocket.

Can such acts be punished?

Most likely, yes. Two recent cases have tended to do away with "impossibility" as a defense against prosecution.

In one case the police caught two men trying to steal tires and told the owner. The thieves told police that a Mr. Fence wanted to buy the tires. A plain clothes officer and the thieves delivered the "stolen" tires to Fence. When he accepted them and paid for them they charged him with attempt to receive stolen property.

Fence said: "Impossible! How could I receive stolen property when it was not really stolen?"

The court found Fence guilty anyhow: he had attempted to commit a crime.

Still the law cannot prosecute a person for merely thinking about doing a crime—if he goes no further.

For an "attempt" to stand up in court, one must do something which would have become a crime if things had gone on as planned.

"Abandonment" is another defense to a charge of an attempt. Slug gave up his plan to rob a store when he spotted the police watching him. Giving up the attempt at this point was no defense to a charge of attempted robbery. For Slug had given up his robbery only when police interrupted him. He was guilty, not of robbery, but attempted robbery.

To "solicit" another person to commit a crime is also a crime. And, if two or more people plot a crime (and do something toward carrying it out), they also commit the crime of conspiracy even though they do stop short of the actual crime. In fact, "conspiracy" to commit a crime may carry more severe penalties than doing the crime itself.

Note: California lawyers offer this column so you may know about our laws.

Letters To The Editor

YWCA Thanks

Dear Mr. Bradshaw,

On behalf of the Area Committee of the YWCA of North San Mateo County, I wish to thank you for the excellent news coverage you have given us during the past year. It has been a wonderful opportunity for me to work with you and your staff.

Without your cooperation we would be unable to adequately publicize our many classes and social events that are available to the people of the community.

It is certainly a privilege to be included in the WESTLAKE TIMES and THE RECORD, and I hope we will continue working together again in the fall.

Sincerely,
Doris Fox,
Publicity Director,
YWCA of North San Mateo County.

THANKS PAPER FOR PTA NEWS

Dear Editor,

We would like to take this opportunity to thank the Westlake Times for the coverage given the Linda Mar PTA in the past year; also for your acceptance of school news.

Marjorie T. Johnson,
Publicity Chairman,
Linda Mar PTA

Camera Needed By Pan American Group

Four Benjamin Franklin teachers who make up the Pan American Educational Study Group, and who plan an extensive three-month round trip to Central America and back, beginning this Saturday, are badly in need of a 16 mm camera, which they would like to borrow at a small rental fee.

The group explained that the camera will be used to take educational pictures of the countries they plan to visit, such as Panama, Central America, and Mexico. They assure any prospective donor that they are willing to fully insure his camera.

Anyone who might have a 16 mm camera that he is willing to lend out is asked to contact Robert Daugherty at PL 6-4109.

SSF Planners Ready Large-Scale Ordinance

Planned community development to insure "a more coordinated whole" within the City of South San Francisco is being considered by the city planning commission.

The proposed SSF Zoning Ordinance is an attempt to insure "Well-designed, large-scale projects, while retaining sufficient control by the city to insure that such projects will be consistent with community objectives and carried out in accordance with approved laws," the commission affirms.

A discussion and presentation of the new ordinance was the main topic during the agenda Monday at the recent planning commission meeting.

"The new ordinance," explains a SSF Planning Commission representative, "would in no way negate current restrictive zoning, which assigns city-wide residential, commercial and industrial areas.

"Rather, the ordinance would give the city greater control over developments of four or more acres to insure proper school and public service facilities within these larger developments," the commission reports.

The zoning ordinance—actually new amendments to present zoning ordinances—would facilitate greater economy in utilities and services for new, present and redevelopment programs, and give the SSF City Council greater control and influence in these developments.

Present laws reportedly are not sufficient to effectively meet the demands of rapid city development.

When a final draft of the ordinance is prepared, it will go to the city council for determination.

Library Body Hears Report On Brown Confab

At a recent meeting of the Library Commission Mrs. Maude Hanselman, commission chairman, reported on the Governor's Conference for Library Trustees held in Sacramento June 12 and 13.

Mrs. Hanselman attended with Mrs. Gertrude Kendree and Samuel Chandler, city librarian, on the invitation of Governor Edmund G. Brown called the conference with the purpose of exploring and defining the role of public library trustees and other city and county officials responsible for providing effective public library service in California.

Valuable and constructive information was provided by various speakers and panels during the course of the conference, according to Mrs. Hanselman, which will aid in the operation oft he Daly City Library.

The Library Commission heard reports from Chandler on the proposed 1961-62 budget, circulation figures of both libaries which have increased tremendously, and the anticipated beginning of the contract with the county for reciprocal services enabling the Daly City Library to serve the Broadmoor-Colma areas.

National Fund Drive Begins For New Submarine Memorial

The U. S. Submarine Veterans of World War II, San Francisco Chapter, through its National "Flasher Memorial" Fund Director, Admiral Thomas M. Dykers, USN (Ret.), and its local Flasher Memorial Chairman, A. J. Connolly, 718 W. Orange avenue, South San Francisco, has announced an 'all-out' fund raising drive for their National project to place a decommissioned World War II submarine on display at Groton, Connecticut.

The Submarine Flasher will be moored in a suitable setting alongside the memorial. The The main purpose of this fitting memorial is to perpetuate the memory of all those submariners who lost their lives in the submarine service during World War II.

The decommissioned submarine Flasher has been turned over to the U. S. Submarine Veterans organization by the Navy and is currently berthed at the Submarine Base. It was selected because it has the distinguished record for having sunk the highest amount of tonnage of enemy shipping during WW II (100,231 tons). She was awarded a presidential unit citation in recognition of heroism on her third, fourth, and fifth war patrols in the Pacific.

Plans for display of the FLASHER call for cutting a stairway in both the bow and stern, making it possible for visitors to completely tour the 'boat' without having to climb up and down the hatches.

The site of the Memorial is located on the eastern bank of the Thames River at Groton, Connecticut, directly south of the Gold Star Memorial Bridge. In addition to the submarine display, plans call for the construction of a library and museum, restaurant, tourist facilities, an auditorium, a nonsectarian chapel, and a souvenir shop.

The kickoff' banquet was recently held in New London, Connecticut and was attended by 400 guests including prominent National, state and local officials, numbering among them, Honorable Abraham Ribicoff, Secretary of Health, Welfare and Education.

Additional fund raising campaigns and banquets will be conducted by all 50 chapters of the Submarine Veterans, including San Francisco.

Additional funds will be raised by means of donations and pledges from people throughout the country who feel kindly toward this worthy undertaking. Forms for these purposes are available. The initial goal is $500,000.

Bible Study Is On For 5-Day Period At Our Redeemers

Vacation Bible School continues for the second five-day period. Registrations for the second week of Vacation Bible School can be made on Monday, June 26 at 8:45 a.m. previous to the opening of the second week of school. Boys and girls from ages four years through grade 8 may register for the second week only, by coming Monday morning to Our Redeemer's Church.

Mrs. Elmer Laursen is the director for the Vacation Bible School. Teachers and helpers working with her are Mmes. Glynn Bentley, Robert Hall, Irvin Tweet, F. Caven, Paul Kimble, Arnold Isakson, Nels Reinertson, John Parma, Alex Cozakos, Robert Elliott, Frank Marino, Ed Gulbrandson, Otis Stevenson, Mark Hanna, William Otto, Wilbur Good, Forest Darrenougue, Lloyd Scheophoerster, Misses Rochelle Sonne, Sue McCourtie and Sarah Tweet. Refreshments and recreation are lead by Mmes. Luther Newman, Kenneth Martin, Mr. Marvin Cave and Mr. Gil Barros.

The following new members were received into membership: Mrs. Virginia Harris and John, Mr. and Mrs. Keith Harper, Clay and Linda, Mr. and Mrs. Lawrence Kukla and Lynette, Mr. and Mrs. Dale F. Meyer and Bianca, Mr. and Mrs. Dennis Quade and Cheryl, Mr. and Mrs. Christian Thomassen, Barbara, Rebecca and Marcia, Mr. and Mrs. Elbert Wright, Cheryl and Marsh.

Sunday, June 25: 8:30 and 11 a.m.—Two morning worship services. Sermon: "Seeing the Other's Viewpoint."

Sunday School, 9:30 a.m.—3 years through adult Bible class.

Bill Preventing High House Costs OK'd By Lawmakers

The Rollingwood sponsored anti-high-house-payment measure squeezed through the last-minute traffic jam of bills at the State Legislature's closing session to be accorded final passage by the Assembly.

A leter from Senator Richard J. Dolwig, who introduced S.B. 1015 in March after Rollingwood residents held several mass meetings to protest house payment increases as high as $36 monthly, informed the Round Robin Committee that the measure "is now before the Governor, waiting to be signed into law."

It's News To Vets

QUESTIONS AND ANSWERS

Q.—My daughter, although past 18 years of age, has still been receiving a pension payment since she is still in school. She recently got married but will continue in school. Can she still receive her pension payments?

A.—Pension payments to children of deceased veterans cease when they marry.

Q.—My son was in World War II. Recently he died of natural causes. I have no income. Can I get a pension?

A.—Parents may receive compensation payments only when the veteran-son had a service-connected disability. They are not entitled to non-service-connected pension payments.

Q.—Will the Government pay my way to the VA hospital when I enter next month for treatment?

A.—Transportation may be provided if necessary but only when application for such paid transportation is made in advance. Prior authorization for travel **MUST** be secured from the VA.

Q.—What is the burial allowance provided by the VA?

A.—The VA is authorized to pay $250 toward an eligible veteran's burial expenses. Claims must be filed within two years after the veteran's permanent burial or cremation.

FDR School Site Gets Approval By Pacifica Planners

Approval of the site for the proposed Franklin D. Roosevelt School to be constructed by the Jefferson Elementary School District was given Monday night by Pacifica's city planning commission.

The site, consisting of slightly more than 19 acres, is located north of the Edgemar Freeway and south of Daly City city limits, and is expected to serve some 900 children.

Plans which include the street pattern and grading are to be submitted to the commission at a later date. Pacifica has given no assurance to the district that the surrounding area will be used for residential development. As of the present, their land use plan calls for the immediate area to be developed industrially.

Sam Mazza of San Francisco asked the commission for a variance permit to allow use of the castle in Sharp Park on Mirador Terrace as a tour and historic site, but this request drew a number of protests from property owners in the area.

Basically, their complaint was that it would cause too heavy congestion on the small narrow streets, and traffic would prove a nuisance.

The matter was held over until the commission's study meeting, June 27, at which time Mazza is to come up with possible alternate routes to alleviate hardships.

The commission approved the tentative map for Pacific Manor Knolls, consisting of six single dwelling homes on Manor drive.

The commission also gave its approval to the building plans for the Sea Village Shopping Center, which is to be located across from the Linda Mar Shopping Center.

County TB Group Urges Stern Laws For Clean Air

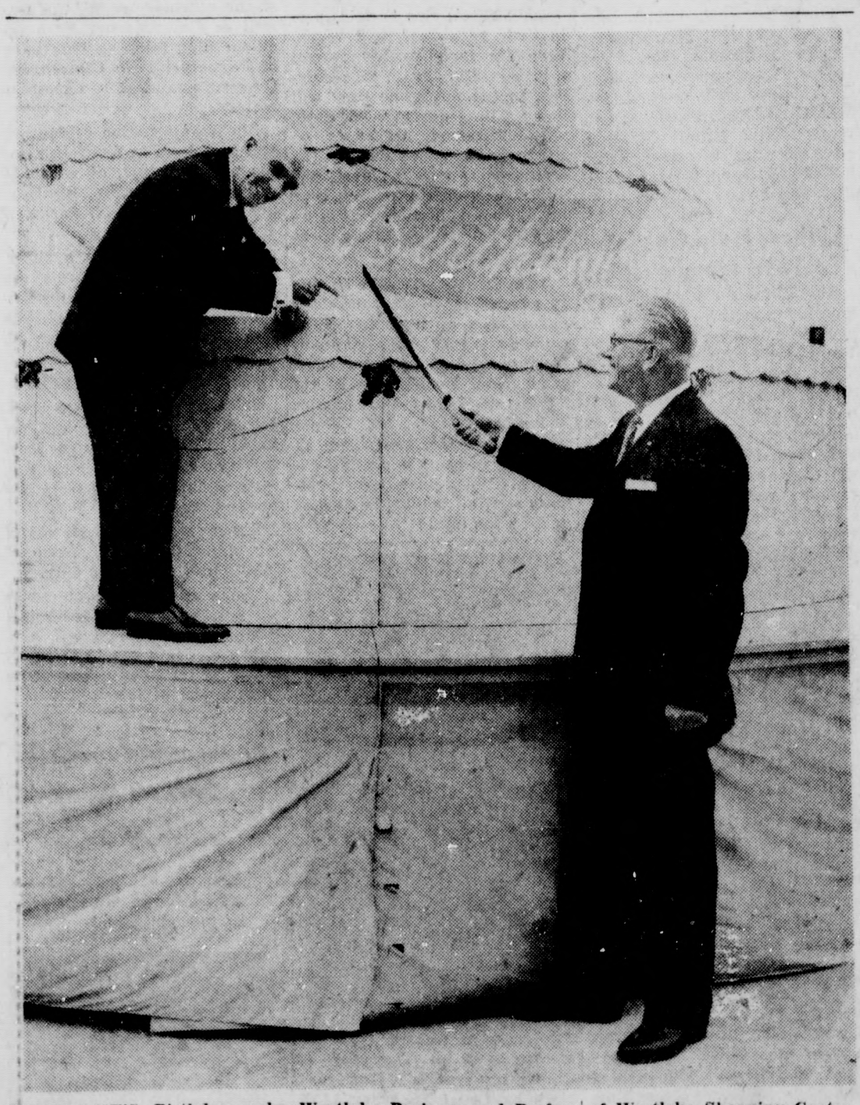
The Board of Directors of the San Mateo County Tuberculosis and Health Association recommends enactment of local city and county ordinances to control air pollution, according to Mrs. Roy N. Cloud, president.

After hearing an analysis of two model local ordinances by Dr. Walter Gaines, chairman of the Association's Respiratory Disease Commitee, the group voted recently to support passage of Model Local Ordinance B regulating the emission of air contaminants, and setting up procedures for inspection and enforcement of "Regulation 2" as adopted by the Bay Area Air Pollution Control District.

"We are convinced," Mrs. Cloud said, "that air pollution is not only a nuisance and damaging to vegetation, but also is a health hazard. We hope that the Board of Supervisors of San Mateo and local city councils will move as soon as possible to set up local enforcement procedures to assist the Bay Area Air Pollution Control Board in meeting this problem. Every effort should be made to assure the community that it has clean air to breathe. Reports show that the incidence of respiratory disease is higher in areas subject to smog and air pollution."

The TB Association also voted its support of a federal bill on Community Health Services and Facilities (H.R. 4998).

State legislation previously recommended for support by the TB and Health Association includes a bill for laboratory services and training workshops for technologists needed for tuberculosis drug sensitivity testing and a measure to repeal the religious exemption in the mandatory tuberculin test or chest X-ray law for public school employees.



WESTLAKE'S Birthday cake is officially cut by Rudi Richter (right), president of the Westlake Business and Professional Association...aided by U. R. Kendree, Managing Director of Westlake Shopping Center.

Church World Serv. Clothing Drive Opens

A refugee family in Hong Kong will be better clothed. A displaced person now living in West Germany will sleep under a warm blanket. A child in a refugee camp in Austria will play outside dressed in a woolly sweater.

These are just a few of the people who will benefit by the Church World Service clothing drive to be held in San Francisco on Sunday, October 1. Under the co-ordinating services of the San Francisco Council of Churches, Protestants will donate warm clothing, blankets and shoes to help meet the needs of people overseas.

According to Mrs. Nohl Bender, chairman of the Church World Service Committee, collection baskets will be placed in churches throughout the city.

Year-round collection points are in operation now. These are located in Glide Methodist Church, 322 Ellis street; Grace Methodist Church, Capp and 21st streets; Park Presidio Methodist Church, 4319 Geary boulevard, and Ingleside United Presbyterian Church, 1345 Ocean avenue.

Because of their basic concern for their fellow men, San Franciscans are expected to donate many pounds of clothing and blankets during this drive on World Wide Communion Sunday.

WALGREEN'S MARKS 60 YEARS THIS MONTH AS TOP DRUGSTORE

A fascinating panorama of drugstore history is painted by the 60 years of service celebrated by Walgreen's this month.

The All-American saga of the small one-store enterprise that bloomed into a 463-store chain tells an exciting story of the growth of the nation's best known drug stores.

For when young pharmacist Charles R. Walgreen, Sr., first cranked down the awning of his little drug store in 1901, its aromatic interior held the seeds of some exciting changes in drugstore retailing.

'Way back then drug stores were dimly lighted places where the druggist compounded prescriptions from only about 400 common bontanical and simple salts. He mixed his own ointments. And often a customer with a sore shoulder had to wait while the druggist percolated arnica flowers for a liniment.

Today's pharmacists have at their fingertips the myriad life-saving miracles of our nation's pharmaceutical laboratories. And in contrast to the few hundred drugs in the old-time drug store, today's Walgreen prescription departments each stock over 5000 different pharmaceuticals.

Wooden Indians made their stand outside many old-time drug stores signaling the sale of tobaccos. Soap was a "slice-it-yourself" project with Castile sold in 18-inch bars which the customer cut to size at home. And soda fountains bubbled only in summer, because who ever heard of eating that cold stuff in winter?

Following World War I, Walgreen's pioneered the first electrically-refrigerated soda fountain, much to the joy of young fountain men whose backs were sore from packing ice and salt around the ice-cream containers daily.

Soon it was to be one of these young Walgreen fountain men who in a flash of genius, invented the chocolate malted milk. It scored nationwide popularity and has since become a staple of every American soda fountain.

WALGREEN'S first customers were welcomed at these counters of their first store opened 60 years ago this month in Chicago. Photo was taken in winter when marble-topped fountain (at left) suspended business, and doubled as candy display stand instead.

100 Attend Special High Mass At OLPH For Jeff High Grads

The Baccalaureate Mass sponsored by Court St. Mary No. 1155, Catholic Daughters of America, for the Jefferson Union High School Graduates last week, at Our Lady of Perpetual Help Church was attended by 100 members of the class, faculty, and parents.

Father Matthew P. Sullivan was celebrant of the Solemn High Mass, assisted by Father Timothy E. O'Brian and Mr. Michael Strange. Alter boys included Ronald Calavano, Dennis Pardini, Michael Day, Dale Mumford, Richard Bonini, John Day, Edward Beecher, and Michael Calegari. Serving as Acolytes were Fred Lofrano, James Iverson, Eugene Duffy, Robert Konovich, Rene Angelot, and William Ciabetari.

Present at the breakfast, that was served by members of Court St. Mary, following the Mass at the parish hall, were the graduates, Father Sullivan, who was master of ceremonies; Father O'Brian, Michael Strange, Seminarian; Mayor Robert St. Clair, Mrs. Fred Wettstein, vice state regent of the Catholic Daughters of America; Mrs. Elmo Pucci, grand regent of Ct. St. Mary; Carl Rollandi, president of the O.L.P.H. Unit of C.C.D.; and faculty members: Principal John Mongan, Thomas Redmond, Donnel Behm, Ada Wood, LaVerne Costanzo, Marion Ebert, Joseph McGrath, Steven Mezzera, Harold W. Vaplon, Barbara Schmidt and Elda Van Note.

Father O'Brian, who is the Assistant Director of Catholic Charities and Archidiocesan Director of Health and Hospitals, addressed the graduates following the breakfast. Recipients of the Christian Doctrine awards, given by Ct. St. Mary No. 1155, Catohlic Daughters of America, to the outstanding boy and girl students of the graduating class of Our Lady of Perpetual Help Elementary School, in the realm of Christian Doctrine, were Gloria Cardenti and Edward Mahoney.

Robert Cluff Is Named Manager Of Home Mutual

Robert R. Cluff has been appointed Manager of the Westlake office of Home Mutual Savings and Loan Association, according to an announcement this week by Sherman Miller, executive vice president and managing officer of the 76-year-old institution.

Cluff will manage the expanded savings and real estate loan departments of the Westlake branch which, effective June 28, moves into new and larger facilities located at 5 Southgate avenue in the Westlake Shopping Center

Prior to his new appointment, Cluff was manager of Home Mutual Irving Street office in San Francisco.

A veteran in the Northern California financial field, Cluff has held positions of area branch manager for other financial institutions in Santa Rosa and San Francisco.

South City Sailor Returns From Duty

An eight-and-one-half-month cruise with the Seventh Fleet in the Western Pacific ended recently for the attack aircraft carrier USS Coral Sea.

Aboard the carrier when she returned to her home port at Alameda, was Harry R. Brocker, fireman, USN, son of Mrs. Gertrude Nicola of 268 Sequoia ave., South Francisco.

MAKING plans for next winter's fashion show sponsored by the Holy Angels' Women's Guild are its two chairmen, Mrs. John Crofton (left), and Mrs. Ellsworth Bobbitt. The affair will be held in the Fairmont Hotel's Grand Ballroom, and "Lady of Spain" will be the theme.

Christian Science Teacher To Speak At Christ Church

The joy and power of spiritual understanding demonstrated will be topic of a free public lecture on Christian Science to be given in San Francisco Saturday afternoon at 2:30 o'clock in the edifice of the Ninth Church of Christ, Scientist, 175 Junipero Serra boulevard, by Charles Louis Reilly of Los Angeles.

A moderator of a number of television programs in the series, "How Christian Science Heals," Reilly is currently on nationwide tour as a member of the Christian Science Board of Lectureship.

He is a native of St. Paul, Minn., and gave up a musical career as a concert pianist in 1940 to devote his full time to the practice of Christian Science healing. He became an authorized Christian Science teacher in 1955. He served for eight years as Christian Science Committeeman on publication for Southern California.

Webster Traffic Squad Honored At Luncheon

A luncheon was held recently by the Daniel Webster PTA commending the Daniel Webster School traffic squad, which is under the direction of Thomas Natoro.

Honorary guest was Principal H. Z. Weibel.

In charge of serving was Mrs. Cora Colelough, Mrs. Louise Sowl, and Mrs. Jeannie Bracisco.

Natoro issued certificates of merit to the traffic squad, in honor of time and effort spent in carrying out rules of safety.

SCOUT AWARDS go to those boy and girl scouts who are outstanding, and three such youths were guests at the Scouts Award Night held recently at Pacifica Heights School, sponsored by the PTA. Bill Gosnell (l.), 475 Higate drive, Daly City, and John Larson (r), 431 Alhambra road, South San Francisco, shared the responsibility as master of ceremonies. Gosnell is junior assistant scoutmaster of Troop 69, and Larson is junior assistant scoutmaster of Troop 79. Penny Schrader (c.) of San Bruno is president of Troop 128 and president of the Senior Planning Board of the Girl Scout Council of San Mateo County. Awards were presented to San Bruno Girl Scout Troop 77.

Second Graders Make Study Of Bacteria

Mrs. Georgina Nyhan's second grade class at Thomas Edison school have been experimenting with bacteria. They grew bacteria in petri dishes.

The conclusions reached by the children from this experiment were the importance of cleanliness.

Paul Adami and Kimo Sherbert from the sixth grade brought a microscope and made slides. They showed these to all the first and second grade students.

SSF Man Elected To Grand Knight Of K of C Council

Robert Vanderputten, deputy grand knight of Marian Council, Knights of Columbus, has been elected grand knight of the council for the term of 1961-1962.

Robert resides with his wife Doris and three daughters Barbara, Loretta, and Martha in South San Francisco.

Other officers elected were: Robert Simon, deputy grand knight; Robert Hale, chancellor; Attilio Pesino, warden; Donald Hackett, recorder; Raymond Tschirgi, treasurer; Joseph Capurro, advocate; J. Leonard Valerio, inside guard; George Marie, Victcire and Vincent Vasile, outside guards; and Henry Wilkenson, financial secretary.

Charles Poetzl current Grand Knight will assume the title of junior past grand knight and was also elected to a three year term as trustee of the council.

Mrs. Burton Is Installed As Club President

Mrs. Jess Burton assumed her duties as president of the Pacifica Federated Women's club recently, when she received the gavel from retiring president, Mrs. Daniel Uriarte. The ceremonies followed the annual installation banquet, held this year at The Breakers in Rockaway Beach.

Among the special guests were Terry Robison and Karen Wilson, Pacifica girls who have been awarded the organization's scholarship grants this year. Both young ladies gave brief accounts of their activities and studies, which will be continued this year at San Francisco State College.

The President's Award was presented to Mrs. Earl Patton for her participation and contribution to the club during the past year.

Club meetings have ben recessed until September, following an active year. A Candidates Night during the election campaign, and contributions to the Park, Beach and Recreation Department and to the Welfare Referral Christmas Fund, have been among public services performed.

Social activities have been highlighted by the annual tea, a luncheon fashion-show and parties at Christmas and in February. This organization was in receipt of two awards at the convention of the Golden Gate District of the California Federation of Women's Clubs, held in Corte Madera in April. The International Affairs Award was presented to the Pacifica Federated Women's Club for its large contribution to CARE, and the Federation Extension Award was given for having the largest increase in membership in the district this past year, 34 members.

Other new officers installed by past-president Mrs. Charles Ashworth include Mrs. Fred Ballew, 1st vice-president, Mrs. C. T. Raines, 2nd vice-president, Mrs. Jack Beall, recording secretary, Mrs. Ernest Mattson, corresponding secretary, Mrs. Willard Petersen, treasurer, and Mrs. Bill Spears, auditor.

Lioness Hold Gabfest; To Take Memberships

The Lioness Club held their monthly meeting recently at Brentwood Lodge in South San Francisco, termed strictly a "fun" evening.

The "gabfest" brought out many wives.

Wives of all Lions are eligible to become members of the Lioness Club, and if they are interested, call May Charette at PL 5-3100 or PL 5-5947.

'Miss Nancy' To Participate In Water Show

Highlighting the current eight-week water safety campaign on Channel 7's "Romper Room," Miss Nancy Besst will join the San Francisco Red Cross in presenting an afternoon life-saving water safety demonstration at Balboa Pool on June 25.

Miss Nancy, who is a qualified Red Cross swimming instructor and life guard, will explain and demonstrate, in person, the many good rules and safe swimming practices she has been showing tiny 'rompers' on her morning show (9:30 a.m. weekdays). Last year her appearance at Fleishhacker Pool drew more than 3,000 youngsters, nearly matching the pool record.

This "Romper Room" summer project marks the third consecutive year that Miss Nancy has presented stories, slides and special films on her show and will make an appearance in cooperation with the Red Cross safety campaign.

Featured in the 'on-air' efforts, Miss Nancy has interviewed Red Cross instructors and water safety experts and presented a film made especially for "Romper Room" on the mouth-to-mouth technique of artificial respiration.

The cooperative safety effort started on May 29 and will continue through July 24. In the upcoming weeks Nancy plans a showing of the three-part film, "Teaching Johnny to Swim," more interviews and special "Do-Bee" lessons on "Swim Careful" and "Swim Careless."

The Channel 7 efforts coincide with similar programs in some 90 other American and Canadian "Romper Room" cities.

DC Sea Scouts Visit Firehouse; Will Go Sailing

Daly City's Sea Scouts, sponsored by the Westlake Subdivisions Improvement Association, capped their last meeting before a summer-long sailing schedule with a visit to the central station of Daly City's Fire Department.

The group of more than 20 young men, under supervision of Westlaker Bob Gunthorp, were shown the functioning of the alarm systems and equipment on the Westlake station's trucks.

Their host was Fire Captain Keith Schrock, who was interrupted twice during the tour. The first time was in response to a false alarm; the second interruption came at the 8:30 p.m. daily testing of the alarm system when it was found that one fire alarm box was not checking out properly.

Daly City's Sea Scouts, now in their fifth year, will reconvene for their weekly formal meetings starting in late August. In the meantime they will enjoy sailing during week days, with occasional workouts on their pulling boat during the weekends. As in the past, the unit will keep the pulling boat handy to aid the rescue of overturned or distressed sailboats at Lake Merced.

Though there will be no further meetings, interested young men of high school or college age may apply for membership by contacting Third Mate Bob Bender at PLaza 5-6835 or Second Mate Bruce Wilson at PLaza 5-1461. Membership is open, regardless of previous scouting or sailing experience, with dues being nominal and all sailing expenses paid by the unit.

TV and Radio

By MONA BAKER

Bounding into town with all the vim and vigor of a teenager was Jack La Lanne, star of KGO-TV's popular television show (weekdays 9 a.m. to introduce his latest book, "Foods for Glamour," just published by Prentice-Hall.

A living example of his philosophy of happiness through physical and mental strength, Jack simply radiates good health. His television program, which is now syndicated, is seen in more than 30 of the country's largest cities including New York, Los Angeles and Chicago.

His latest book reflects his dedication to fitness yet is quite entertaining because it is written with a breezy, direct and completely honest approach to what every woman is seeking, "glamour." Sprinkled throughout with true personal experiences, this book, together with his daily television program should certainly prove to be an inspiration to everyone seeking health and happiness.

Good news from Chanel 2 for the gals in the TV audience—premiering over KTVU on June 27 at 1 p.m. is a new local production with emphasis on beauty, fashion and figure. A sort of television charm clinic the program will feature internationally-known beauty consultant Ross MacArthur supervising a staff of beauty experts. Also appearing on the show is fashion authority Evangeline Baker, and model-artist Judy Sayer. There will be a studio audience, several of whom will be given an opportunity for personal analysis on the program.

• • •

NEW SUMMER SHOW: "This Is NBC News," weekly television news reports that will include analysis and feature coverage as well as spot news (KRON-TV, Sunday, 3:30 p.m.).

Season premiere on June 23, 10:30 p.m., over KPIX of popular CBS show "Person to Person." "The Japanese in San Francisco," with guest star Tab Hunter, will be seen on "PM West" on June 22, 12:15 a.m.

• • •

A bright addition to Channel 9 is the second annual season of view-sponsored, hour-long "live" musical concerts which will be seen on Friday at 8:30 p.m. Two other new program series include "The Measure of Man" (Friday, 9:30 p.m.) and debuting on June 22, "Management, the Corporations: 1985," to be seen at 9 p.m. on Thursdays.

OBITUARIES

Cande Gonzalez

Funeral services were held Saturday for Cande Gonzalez at the mortuary of W. C. Lasswell & Co., followed by a requiem high mass at Our Lady of Perpetual Help Church. Interment was at Holy Cross Cemetery.

She was a native of Mexico, and had lived in California for the past 41 years, of which 14 of these had been in Daly City. She resided at 230 N. Parkview avenue.

She is survived by a sister, Justa Gonzalez, and was the aunt of Jose, Merced, Ruby Trinidad and Lupe Gonzalez. She died at her home on June 14.

Robert Lloyd Merlo

Funeral services were conducted Monday morning for Robert Lloyd Merlo at the mortuary of W. C. Lasswell & Co., with burial at Golden Gate National Cemetery.

Robert was the infant son of Mr. and Mrs. Louis Merlo of 56½ Alp street, Daly City.

Merlo found his seven-month old son dead in his crib last Friday morning about 7 a.m. Cause of death has been determined as pneumonitis, an acute inflamation of the lungs.

Unsurpassed quality does not mean high prices

Despite Gray's reputation for excellence, prices are very reasonable.

LT. CMDR. Edith Bell Marsh, a Wave Reservist, who served in World War II and continues her Navy affiliation by belonging to a Reserve Unit and returning to active duty for training two weeks a year, poses with a recruiting poster directed at Waves of the future. "The Waves 19th National Reunion will be held in Los Angeles July 27-30, and the Committee hopes for the largest attendance yet of women who wear—or have worn—our blue uniform," says Lt. Cmdr. Marsh. Mrs. Marsh, who resides with her husband, Norman C. Marsh, at 240 Westbrook, Westlake, is in her civilian life fashion show director of I. Magnin & Co.

W'lake Catholic Women Install New President

Mrs. Al Bucci is the new president of the Westlake Catholic Women, and Mrs. Philip Fraher is newly-elected vice president, during the recent Eighth Annual Installation of Officers of the women's association.

The installation took place at the Olympic Club at Lakeside with approximately 200 women in attendance, following the mass at Our Lady of Mercy Church.

Mrs George Snell was chairman for the breakfast, assisted by Mrs. Paul Hovorka as co-chairman. Mrs. Donald Castranova was in charge of the lovely floral arrangements.

Mrs. Robert Wagner, spiritual director, presided as chairman of the day. Seated with Mrs. Wagner at the speaker's table were past president, Mrs. John Cresalia; outstanding Catholic laywoman, Mrs. John J. Murray; N.C.C.W. member, Mrs. Mackall, Reverend Father Richard Power, Pastor of Our Lady of Mercy Parish and Reverend Father John Bradstreet, S.J.

Mrs. Wagner opened the festivities by introducing Father Power, who gave a short greeting to the members. Mrs. Cresalia then presented a resume of the activities of her very successful 1960-1961 term. The Mercy Ball, Sodality Enrollment, Fashion Show, Rummage Sale, Day of Recollection, Festival and other events were all reviewed, and the chairmen and girls who worked so hard were thanked by the very popular out-going president.

Other new Board members are: Mrs. Edward Beltramo, historian; Mrs. James Storman, N.C.C.W. representative; Mrs. Mrs. Thomas Gill, publicity director; Mrs. Richard Silver, treasurer; Mrs. Harold Major, corresponding secretary; Mrs. Joseph Hamblin, recording secretary; Mrs. Patrick Schofield, fourth director; Mrs. John Bennett, third director; Mrs. Frank Burns, second director, and Mrs. Howard Poblitz, first director.

Mrs. Bucci then presented a lovely silver covered vegetable dish with appropriate inscription to Mrs. Cresalia on behalf of the membership of the Westlake Catholic Women.

Banquet Is Big Hit; YWCA Ends Year

An excited and happy throng filled the Westlake Bowl's Banquet Room June 10 for the final social event of the season for the YWCA of North San Mateo County, and put an overwhelming stamp of approval on the "cabaret night" dinner dance.

From the early start to the finish with the 1 a.m. Congo line the evening was one of fun and surprises for the guests present.

Following the dinner, local professional dancers Lee and Patricia Mecham opened the floor show which included acts by Jerry Matlock and Jerry Harbin.

Walt Toleson's Combo, courtesy of the Westlake Bowl, ushered in the social dancing with an impromptu song fest. Jim Grealish, Bowl Manager, and Y Director Elaine Wolfe were credited for the work and planning that went into "Cabaret Night."

OFFERING congratulations to Charlene Del Sarto, graduating senior and student body president of Jefferson Union High School is Principal John Mongan, while Rev Matthew P. Sullivan, assistant pastor of Our Lady of Perpetual Help Church (far left) and Mayor Robert B. St. Clair (far right) look on. The occasion was at a special breakfast given Thursday to graduating seniors of Jefferson High by Court St. Mary 1155, Catholic Daughters of America. Mayor St. Clair was a guest speaker.

We're proud of our Billion Dollar Company

This month Manufacturers Life became one of the 20 major North American life insurance companies whose assets exceed one billion dollars. But such a milestone in growth has meaning only in terms of human endeavor, of goals and accomplishments, of principles and dedication to them.

The part played in this success story by our policyowners is an excellent illustration. These are the men and women whose basic human desire for financial security for their families and themselves led to the purchase of life insurance in this Company. Our assets are their savings. We are deeply conscious of the trust placed in us to invest these funds soundly and profitably on their behalf and later to make them available in times of emergency or need.

We are sure they share with us the pride of being associated with a billion dollar company.

Richard B. Roberts

PICTURE PRETTY is the smart wardrobe that will make the 1961 San Mateo County Fiesta Dream Girl the prettiest subject in any artist's opinion. The attractive models are (l. to r.) Holley Hammond of Hilsborough; Mady Fabris and JoAnn Lewis, both of San Mateo.

Italian Group Gets Officers, Plans Festival

Tony Breda of San Mateo and Pan American World Airways, is newly elected president of the Italian American Federation of San Mateo County at a recent installation dinner.

Breda succeeds Dan Casentini of Colma. Other elected officers are Mario Marcucci, vice-president; Esther Marlo, secretary; Roy Barghini, treasurer; Joseph Quilici, sergeant-at-arms, and Casentini, parliamentarian.

The Italian-American Federation of San Mateo County is comprised of organizations in the county consisting of Americans of Italian heritage, and its major project is to promote and sponsor the annual Columbus Day Festival in the county.

October 15 is the date selected for the Columbus Day banquet to be held at the Peninsula Social Club, 101 North B street, San Mateo.

Net proceeds for the Queen Isabella beauty contest will go to the Children's Health Home for Mentally Retarded Children and Adults in San Mateo. The queen also will reign over the Columbus Day festivities.

Prospective entrants in the queen contest should make application soon by contacting Breda, DI 4-6654, or Dan Monaco, FI 1-8707.

Marcucci is appointed queens' contest chairman, Barghini is festival chairman, Joseph Quilici is co-chairman, Breda is program chairman, and Monaco is publicity chairman and master of ceremonies for the banquet.

Breda affirmed that an outstanding statewide-known speaker will be sought for the crowning of the queen and for a major address.

Following the meeting, members of the Federation gave a party for outgoing president Casentini, and presented him with a gift. He thanked the group and urged great effort to make the festival a success on behalf of the Children's Health Home for Mentally Retarded Children and Adults.

NEW OFFICERS for the Pacifica Federated Women's Club are pictured above. They are (l. to r.) Mmes. Jess Burton, president; Fred Bellew, first vice-president; C. T. Raines, second vice-president; Jack Beall, recording secretary; Ernest Mattson, corresponding secretary; Willard Petersen, treasurer, and Bill Spears, auditor.

Vets Eligibility For Hospital Care Is Told By VA

Needed hospital care, within the limits of VA facilities, is generally available to veterans as follows, San Mateo County Veterans' Service Officer Floyd D. Granger said this week:

1.—A veteran of any war for a service-connected disability incurred or aggravated during a period of war, or for any other disability if such veteran is unable to defer the expenses of necessary hospital care;

2.—A veteran whose discharge or release from active service was for a disability incurred or aggravated in line of duty;

3.—A person receiving disability from the VA, or who would be except for the receipt of armed forces retirement pay.

First priority for admission to a Veterans Administration hospital, the service officer emphasized, goes to veterans with service-connected disabilities.

Second on the priority list are veterans with service-connected disabilities who need treatment for some ailment not connected with their service disabilities.

Third in priority are veterans who have no service-connected disability or injury, if hospitalization is necessary.

GARDEN SCENT IS ALWAYS A JOY; TIME TO PLANT

To chance upon a lovely garden scent is always a joy, but why leave it to chance? Let your nose be your guide at planting time and you can be sure of fragrance when and where you want it.

Right now, for instance, you can do something to fill your summer nights with perfume—and a greater pleasure there is none. Who can resist the garden on a balmy night, when it's full of fragrance from some unseen shrub?

There are several shrubs that will give you night fragrance, but not of them does it better than Night Scented Jasmine. So fragrant is it, in fact, that planting it a discreet distance from the house will prevent too much of a good thing. The flowers are not spectacular to lok at, but certainly wonderful to sniff.

Star Jasmine dispenses a more delicate perfume and its show of pinwheel blooms is worth planting for itself. Train it up a pillar to an overhead trellis or merely let it ramble into a mounding, attractive ground cover.

Citrus in many forms will yield its irresistible scent on a summer night. Best check with your neighborhood member of the California Association of Nurserymen to find those that will bloom during the coming weeks. Several tubbed dwarf citrus treets will make your patio more pleasant in either night or day.

Gardenias, of course, are to be planted for garden fragrance and here again tubbing is one answer for having that fragrance close at hand. The Jasmine family—not to be confused with the two would-be Jasmines mentioned above—has many members that give off delicate fragrance on a balmy evening. Common Jasmine and Italian Jasmine are both summer-long bloomers.

A final choice is Bouvardia, best in the warm coastal areas in southern California, but so enticingly fragrant that gardeners are always ready to try it elsewhere in the state. If you have a warm, sheltered spot where it can be protected from frost, by all means, give it a try.

Booklet Explains Planned Fun For Handicapped

There is no need for a handicapped youngster in San Mateo County to remain inactive this summer for want of recreational opportunities.

According to a new booklet, issued by the Community Council of San Mateo County, there is a variety of services geared specially to help overcome the problems of those with physical or mental handicaps.

Mrs. Martin Dinkelspiel, chairman of the Council's Committee on Recreation for the Handicapped, said that the Directory has been prepared to answer questions of parents or persons working with the handicapped. It lists services ranging from day camping to special dance groups, trips and swimming programs.

Interested persons may obtain copies of the Directory at the office of the Community Council, 3 West 37th avenue, San Mateo, or call FI 5-7963. Copies have also been sent to local schools, libraries and youth agencies.

The Community Council is a social welfare planning agency, financed jointly by the United Crusade of San Mateo County and the County of San Mateo.

FILLO-GARBER MARRIAGE SET FOR JULY 22

July 22 is the date set for the wedding of Sharon Fillo and Larry Garber, both of Broadmoor. Vows will be exchanged at St. Gregory's Church in San Francisco.

Sharon is the daughter of Mr. and Mrs. Joseph Fillo of 1021 Gilman drive. She is a 1961 graduate of Westmoor High School.

Larry is the son of Mr. and Mrs. Hiram Garber of 1008 Nimitz drive, and is employed in the family business. He attended schools in Fresno and San Francisco.

CIVIC CLUB THANKS PRESS FOR SERVICE

Dear Editor,

I wish to send my sincere thanks to you and your staff for entering the articles which I've sent in for the past year. You have been very co-operative, and the members of the Women's Civic Club join me in thanking you.

Mrs. E. Byrne,
Past Publicity Chairman.

Time Lapse Movies For Fuchsia Meeting

Time-lapse motion pictures, "From Bud to Bloom," will be a feature of Friday's meeting of the Pacifica Branch of the American Fuchsia Society meeting, which will be held at the Veterans' Hall, 4 Paloma, Pacifica, beginning at 8 p.m.

Guest speaker will be Joseph H. Kusber of Daly City, president of the American Fuchsia Society.

There will be a plant table and refreshments. Guests are welcome.

Webster PTA Execs Map Out New Plans

The last executive board meeting of the Daniel Webster PTA was held recently at the home of Mrs. Mary Wilson, at which time plans for the 1961-62 school year were discussed.

The program planned is expected to be one of the most interesting and beneficial ever initiated, according to Mrs. Jeannie Bracisco, publicity chairman.

Doug Biancalana Back From Sea Assignment

Completing a seven-week southern cruise in the Pacific aboard the Seventh Fleet heavy cruiser USS Saint Paul when she returned to Yokosuka, Japan, recently was Douglas A. Biancalana, fireman apprentice, USN, son of Mr. and Mrs. E. A. Biancalana of 84 Fleetwood drive, Daly City.

PTA's Give United Graduation Party

Sixth grade classes at George Washington School, including recently transferred students from Thornton, were given a graduation party on June 14 by combined efforts of Crocker-Pershing-Washington PTA and Vista Grande-Thornton PTA.

Footlong hot dogs and all the trimmings were served in the multi-use room of George Washington. Mothers assisting from both PTA's were: Mesdames E. Pina, A. Hicks, V. Starkey, C. Newman, M. Hackett, A. Tiraschi, H. Coil, W. Jones and W. Baker.

Entertainment was provided by the Rivera Brothers Combo with Tyrone on saxophone, William, drums, and Bernard, guitar. Two movies were also shown.

Mrs. Al Tiraschi, president of Vista Grande-Thornton PTA, was presented with a hand-carved woden tiki necklace and two statues from Mrs. Claire Ballou's class.

NEVILLE FORD GIVEN AWARD FOR CIVIC HELP

A Certificate of Appreciation was awarded recently to Neville Ford by Jefferson High School and the California State Automobile Association for the firm's co-operation in the school's driver training program.

Ford loans an automobile for use in the school's driver training classes and installs AAA dual controls at no cost to the school. The agency has participated in the program since 1957.

The civic service commendation was presented to Ira Neville, partner of the agency, by H. R. Rasmussen of the AAA motorists' organization, which started and developed the program of arranging for dealers to loan driver training cars to schools.

La Honda Junior Rodeo Is June 25

The eighth Annual La Honda Junior Rodeo is set for Sunday, June 25, beginning at 1 p.m., with more than 300 boys and girls from all parts of Northern California and Southern Oregon participating.

The event, sponsored by the La Honda Community Hall Association, will be held on the junior rodeo grounds on Mrs. Edith C. McDonald's ranch, located three miles west of Skyline Boulevard on La Honda Road.

Mrs. McDonald will lead the grand entry of contestants with Rodeo Chairman William Glass. Several thousand spectators are anticipated for the competition.

Twelve contests are scheduled, including steer and calf riding, calf and break-a-way steer roping, pig scrambles, trail horse and stock horse classes, Pony Express races and barrel races.

Youngsters from 1 to 18 years old enter the various events according to age group. Entry fees, ranging from one to three dollars, are used for cash prizes. Buckles, merchandise orders and ribbons are also awarded.

Admission to the rodeo is one dollar for adults and fifty cents for juniors up to 16. All proceeds are used for La Honda community benefits.

SM Girl Scout Office Moves To Burlingame

The Girl Scout Council of San Mateo County is moving Friday, June 23, from the office at 504 Sylvan avenue, San Bruno.

The council will be open for business on June 26, at their new headquarters at 1101 Juanita avenue, corner California drive, in Burlingame.

New telephone numbers are JU 3-2060 and DI 4-7674.

DC Sailor Aboard Radar Picket Ship

A six-day goodwill cruise to Canada ended in San Francisco recently for the radar picket ship USS Scanner. Serving aboard the ship during the cruise was Gerald A. Dekker, fireman, USN, son of Mr. and Mrs. Nicholas J. Dekker of 101 Bepler street, Daly City.

District Attorney Speaks To Rotary

Keith Sorenson, district attorney of San Mateo County, was guest speaker at the last luncheon meeting of the Daly City Rotary Club. He spoke on "Indecent and Obscene Literature."

Sorenson pointed out that the distribution of such matter poses a serious problem for all. He said there were, however, ample laws now on the books to prosecute individuals who publish or distribute literature of this type.

Art Colvin was program chairman.

WELLS FARGO BUYS SSF HIGH BONDS

Wells Fargo Bank American Trust Company, with Shuman, Agnew & Co. participating, recently bought the $1,325,000 bond issue of South San Francisco Unified School District, San Mateo County.

In competitive bidding, the issue was won by Wells Fargo American Trust on the basis of its bid of par value and a premium of $825 for an annual net interest cost to the school district of 3.51376 per cent.

Shirley Hodges Wins College Awards

Shirley Hodges, daughter of Mr. and Mrs. Lynn Hodges, 141 Westmoor avenue, Daly City, is among students at Linfield college, McMinnville, Ore., who received awards for participation in drama, speech and journalism activities during the year at Linfield. Some 140 awards were given.

Miss Hodges received her first year award in drama. She is a freshman English major at Linfield.

VISTA MAR PTA GIVES KIDS PARTY

To culminate the school year, the Vista Mar PTA gave each class an end of the year party.

In addition to delicious refreshments provided by the room mothers, the children organized various activities in the individual rooms. In one room children participated in a vigorous game of Truth or Consequences.

Other children enjoyed accordian, piano, guitar and organ solos. The boys and girls also presented skits, tap dancing, and singing.

Twenty-five staff member and escorts of Vista Mar enjoyed their party recently at the Officers Club at Hunters Point.

Stanford Degrees For Two DC Men

Two Daly City residents were among the graduates receiving degrees at the 70th annual Stanford University commencement exercises held recently in Frost Amphitheater on the campus.

Those local persons honored were Fredrick H. Berman (A.B. in Biology); and Donald R. Calvert (Ph.D. in speech pathology and audiology).

The graduates include those who have completed their work at the end of one of the four quarters. Graduation exercises are held only in June, at the close of the spring quarter.

Temple Methodist Holds Church School From July 10-21

Temple Methodist Church, 1111 Junipero Serra boulevard, San Francisco, will conduct its annual Vacation Church School from July 10 through July 21 at 9:30 a.m. to 12 noon weekdays.

Army Engineers Honor DC Residents

Service in the U. S. Army Corps of Engineers brought recognition recently for three Daly City residents.

Honored with service awards for 20 years with the Army Engineers were Sol Cohen, 28 Elmwood drive; and Shelby M. Hartman, 455 Wincheter street.

A 10-year pin was given to Charles E. Elmore, 470 Las Palmas drive. Lt. Col. Vernon K. Sanders, acting San Francisco district engineer, made the presentations at ceremonies marking the 186th anniversary of the corps.

Salvation Army Drive Moving Toward Goal

Edward King, treasurer of the Westlake Salvation Army service unit, reports that the response to the Salvation Army Summer Appeal has been encouraging, and that the goal is within sight.

Workers have been calling upon their neighbors for solicitations. In order to achieve 100 per cent target, King urges all friends of the Salvation Army to return their gift envelopes as soon as possible.

Principal Martindale Receives PTA Gift

Vista Grande-Thornton PTA executive board recently met at the home of Mr. and Mrs. C. J. Martindale in Pacifica.

Mrs. Al Tiraschi, president, presented Principal Martindale of Vista Grande School, with a farewell gift. He will be serving at Garden Village School next year. His wife is president of Linda Mar PTA.

TAX DIRECTOR TELLS STEP-UP IN COLLECTIONS

Joseph M. Cullen, director for the San Francisco District of the Internal Revenue Service, has informed employers that the Internal Revenue Service has stepped up collection processes for taxes withheld from the wages of employees and not paid over to the Government when due. He explained these are trust fund collections belonging to the United States and are in no way available for use by employers.

Cullen said an increasing tendency has appeared on the part of some employers to defer as long as possible paying the Government the taxes withheld. He said the number of delinquent employment tax accounts also has risen in recent months.

The director stated that, although the great majority of employers fully comply with this requirement, the Government continually has been faced with the problem of a relatively few employers who fail to pay over such taxes promptly.

Mr. Cullen said IRS enforcement will be applied fairly, with due regard to the circumstances of each delinquency case, but that the Service will be firm in seeing that withheld taxes properly due the Government are not dissipated by employers, or otherwise diverted to their own use for even a short period.

"To permit the continuance of these abuses places an unfair burden on law-abiding employers and the tax-paying public generally," he said.

DEMATTEI-ALIOTO ENGAGEMENT TOLD AT DINNER PARTY

Mr. and Mrs. J. Demattei, of 169 First avenue, Colma, recently announced the engagement of their daughter, Gloria, to Al Alioto of San Francisco. The announcement was made at a dinner given by her parents.

The bride-elect atended Jefferson Elementary and Jefferson Union High Schools and was graduated from San Francisco State College, where she obtained a teacher's credential. She is presently teaching the fifth grade at Garden Village School in this city.

Al attended Mission High School of San Francisco and is presently employed by the Pacific Telephone Company.

MR. AND MRS. Timothy Giroux are shown above following their recent church wedding, about to cut the elegant-looking cake during a reception. She is the former Joanne Montgomery of Daly City. Couple were wed in Our Lady of Perpetual Help Church.

Daly City Girl Is Married In OLPH Nuptials

Our Lady of Perpetual Help Church in Daly City was the scene of the recent wedding of Joanne Montgomery to Timothy Giroux.

The bride is the daughter of Mrs Joseph C. Montgomery of Daly City. Joanne attended Polytechnic High School in San Francisco and City College of San Francisco. She was given in marriage by her brother, Michael.

An orange blossom crown held the bride's fingertip illusion veil, and her full length gown was fashioned of Boie de Soie and lace. She carried a prayer book with a spray of white orchids and stephanotis.

The maid of honor was Doris Melendez of Daly City. Mary Anne Gillis, Carolyn McDonald, Carol Andrus and Lyn Mary Tringali of Daly City, were Bridal attendents.

The bridegroom is the son of Mrs. Virginia Tigueroa and Lawrence Giroux, and attended the University of Southern California.

Fred Howard of Daly City was best man and ushers were Bob Geiring, Fred Carrejo, and James Stevens.

Nuptials were performed by the Rev. Father Flavian, a close friend to the bride.

The couple honeymooned in the Santa Cruz Mountains.

Rules and Regulations on
GARBAGE COLLECTIONS

Notice of Tax Sale

Notice is hereby given that unless the taxes, together with all costs and delinquencies thereon are sooner paid, the property described in said delinquent tax list upon which the said taxes are a lien respectively, will be sold to the City of Daly City by operation of law at the time and place hereinafter mentioned, in the manner and under the conditions prescribed by law.

Time of Sale—Monday, July 3, 1961, at the hour of 10 o'clock a.m.

Place of Sale—City Hall of Daly City, County of San Mateo, State of California.

All the property hereinbefore described is in the City of Daly City, County of San Mateo, State of California.

Dated at Daly City, California, June 8, 1961.

ROLAND A. PETROCCHI,
Tax Collector,
By E. MOSMAN,
Deputy Tax Collector of Daly City

STANFORD HAS SMOG MACHINE FOR AIR STUDY

Stanford Research Institute recently added an electronic instrument able to identify components of smog at concentration levels of parts per billion to its collection of tools for the study of air pollution.

Dr. J. Leslie Jones, SRI's project supervisor for air pollution, said the instrument, largest of its kind commercially available, has been installed at the institute's Southern California Laboratories at South Pasadena.

GLUE WARMER

To keep glue warm for easier flow and better results, you can pour it into a tin can and let it stand in water inside a baby's bottle warmer.

NOTICE TO BIDDERS

Notice is hereby given that the Board of Trustees of the Jefferson Elementary School District will receive bids for Metal Partitions, Shelving, and Office Furniture.

Each bid shall be made out on a form to be obtained at the office of the School District; and shall be accompanied by a certified or cashier's check, or a bid bond for at least ten (10) percent of the amount of the total bid, made payable to the order of the Jefferson Elementary School District, Daly City, San Mateo County, California; shall be sealed and filed with the Board of Trustees of the Jefferson Elementary School District, 48 Park Plaza Drive, Daly City, San Mateo County, on or before 10:00 a.m., June 29, 1961 when it will be opened and publicly read aloud.

The above mentioned check or bond shall be given as a guarantee that the Bidder will enter into a contract, if awarded to him, and will be declared forfeited, if the successful bidder refuses to enter into said contract.

The right to reject any and all bids or waive any informality in the bid is reserved.

No bidder may withdraw his bid for a period of 30 days after the date is set for the opening thereof.

Dated: June 9, 1961

TEEN CLUB HOLDS INVITATION DANCE FOR 8TH GRADERS

The HI-Fi Teen Club, sponsored by the Daly City Department of Recreation, held their annual eighth grade invitational dance recently. This dance is held each year for the purpose of introducing next semesters new high school students to the Teen Club activities in Daly City.

Several hundred of the graduating eighth graders enjoyed an evening of dancing at the War Memorial Community Center as guests of the Hi-Fi Teen Club. These students will become eligible for membership in the club this fall as they enter Jefferson and Westmoor high schools.

Ordinance No. 13

AN ORDINANCE PROVIDING FOR THE COLLECTION OF SEWER SERVICE CHARGES FOR THE FISCAL YEAR 1961-62

NORTH SAN MATEO COUNTY SANITATION DISTRICT

The Board of Directors of the North San Mateo County Sanitation District, San Mateo County, California, does ordain as follows:

Section 1. The North San Mateo County Sanitation District, San Mateo County, California, does hereby elect, pursuant to Section 5473 of the Health and Safety Code of the State of California, to have the sewer service charges established by said District pursuant to its Ordinance No. 2 passed and adopted by the Board of Directors of the District on June 14, 1954, as amended by Ordinance No. 5 of said District passed and adopted on June 27, 1955, collected on the tax roll of the County of San Mateo, California, in the manner provided pursuant to Sections 5471 through 5473.9 of the Health and Safety Code of the State of California and said Ordinances Nos. 2 and 5 of said District.

Section 2. Monday, the 17th day of July, 1961, at the hour of 11:15 o'clock A.M., at the regular meeting place of said Board, North San Mateo County Sanitation District Sewage Disposal Plant, 153 Lake Merced Boulevard, Daly City, California, are hereby fixed as the time and place for hearing on the sewer service charge report filed with the Secretary of this District, pursuant to law, and the Secretary shall publish Notice of said hearing and of the filing of said report, once a week for two successive weeks prior to the date set for said hearing, in the Record, a newspaper of general circulation printed and published within the District.

Section 3. Upon adoption, this ordinance shall be entered in the minutes of the District and shall be published once in the Record, a weekly newspaper of general circulation printed and published within the District, within fifteen days of its passage and adoption, and shall take effect upon the conclusion of the hearing herein fixed to be held.

FRANCIS P. PACELLI
Chairman of the Board of Directors of the North San Mateo County Sanitation District.

NOTICE INVITING SEALED BIDS

NOTICE IS HEREBY GIVEN that the Board of Trustees of the Jefferson Union High School District of the County of San Mateo, California, will receive sealed bids up to and including 10:00 A.M., on the 7th day of July, 1961, at the office of the Superintendent, 375 South Mayfair Avenue, Room 214, Daly City, California, at which time said bids will be opened and read for the supplying of:

Bid No. 101
ATHLETIC EQUIPMENT
Bid No. 102
TYPEWRITERS

in accordance with instructions, conditions and specifications and form of Agreement now on file in the office of the said Superintendent of said district.

Each bid must be accompanied by a certified check or bond equal to 10% of the bid. Said check is to be made payable to the Jefferson Union High School Distirct and shall guarantee that should his bid be accepted the bidder will enter into a contract within 10 days from the date of mailing of notification that the contract is ready for execution. Said check or bond shall be deemed liquidated damages and surrendered to said Board if the successful bidder fails or refuses to enter into a contract within said period.

The Board of Trustees of the Jefferson Union High School District reserves the right to reject any and all bids and waive any irregularity therein, and reserves the right to award the said contract or reject all bids at any time within 30 days after the opening of bids.

No bidder may withdraw any bid submitted by him for the said period of 30 days after the said date of opening of bids.

NOTICE OF TRUSTEE'S SALE

(262584)

On Wednesday, the 12th day of July, 1961, at the hour of 10:30 o'clock A.M., of said day, in the front lobby of the office of City Title Insurance Company, at 601 Hamilton Street, in the City of Redwood City, County of San Mateo, State of California, CITY TITLE INSURANCE COMPANY, a California corporation, as trustee, will sell at public auction, to the highest bidder, for cash, in lawful money of the United States, all payable at the time of sale, the following described real property, situated in the County of San Mateo, State of California, and described as follows, to-wit:

LOT 32, as designated on the map entitled "TRACT NO. 625 STERLING PARK SAN MATEO COUNTY, CALIFORNIA," which map was filed in the office of the Recorder of the County of San Mateo, State of California on April 11, 1950 in Liber 31 of Maps at page 20.

Said sale will be made without covenant or warranty regarding title, possession or encumbrances to satisfy the obligation secured by and pursuant to the power of sale conferred in a certain deed of trust executed by JAMES G. FLEMING, and DOROTHY FLEMING, his wife, Trustor, to CITY TITLE INSURANCE COMPANY, a California corporation, as trustee, for the benefit and security of EVERETT J. MANSFIELD, dated May 10, 1958 and recorded May 13, 1958, in the office of the County Recorder of the County of San Mateo, State of California, in Liber 3391 of Official Records at page 496 (415600).

TOWN OF COLMA

NOTICE OF HEARING OF APPLICATION FOR CHANGE, AMENDMENT OR SUPPLEMENT UNDER THE MASTER ZONING ORDINANCE

NOTICE IS HEREBY GIVEN to the public and to the owners of property lying within 500 feet of the exterior boundaries of the property hereinafter particularly described that an application has been filed with the City Planning Commission of the Town of Colma by Cypress Abbey Company, a corporation, located in the Town of Colma, California, requesting a change, amendment or supplement under the Master Zoning Ordinance (Ordinance 82 a) of said Town of Colma to rezone property hereinafter described form G-1 Zone to G-3 Zone, and to permit applicant to improve said property by constructing thereon a portion of a nine-hole Golf Court, and for no other purposes; that upon discontinuance as use as a golf course, said property shall be used only for cemetery and accessory purposes, and agricultural uses. Said reclassification of property is being requested under Section 15 of said Master Zoning Ordinance.

The property located in the Town of Colma covered by said application is described as follows:

A portion of Abbey Homestead as said tract is shown upon a map filed in Volume B of Maps at page 43 and a copy entered in Book 1 of Maps at page 14, San Mateo County Records, described as follows: BEGINNING at a point on the center line of Linden Street distant thereon Southeasterly 350.00 feet from the Southeasterly line of Campbell Street in said Abbey Homestead; thence Southwesterly parallel with the Southeasterly line of Campbell Street to the center line of Alaska Street; thence Southeasterly along the center line of Alaska Street to the center line of Dryden Street; thence Southewesterly along the center line of Dryden Street to the center line of Hillside Boulevard; thence Southeasterly along the center line of Hillside Boulevard to the center line of Cyrus Street; thence Northeasterly along the center line of Cyrus Street to the center line of Linden Street; thence Northwesterly along the center line of Linden Street to the center line of Lake Street; thence Northeasterly along the center line of Lake Street to the center line of Villa Street; thence Northwesterly along the center line of Villa Street to the center line of Dryden Street; thence Southwesterly along the center line of Dryden Street to the center line of Linden Street; thence Northwesterly along the center line of Linden Street to the point of beginning.

That the property described above and for which rezoning is requested is to become part and parcel of a nine hole Golf Course. Heretofore, the immediately adjacent and contiguous property has been reclassified into Zone G-3.

At present, the exact types of buildings and the exact cost of construction are unknown and will depend upon petitioner obtaining the request set forth in this application. Estimated cost of construction will be approximately $70,000.00, which will include grading, landscaping, seeding and construction of various holes, fairways, approaches, traps and other work necessary to construct said golf course.

The property described above is presently zoned G-1, and if this application is granted, it will be and become a part and portion of the G-3 Zone of said City, which said G-3 Zone is fully described in Ordinance No. 103 of the Town of Colma, amending the Master Zoning Ordinance of the Town of Colma, and the use and classification thereof will be governed by the restrictions and limitations therein contained.

Applicant requests that the Zoning Map of the Town of Colma be changed, amended or supplemented to show that the property described in this notice is within such zone.

A public hearing on said application will be held on Wednesday evening, July 5, 1961, at the hour of 7:30 P.M. at the City Council Chambers, City Hall of the Town of Colma situated on the West side of El Camino Real at Jewell Avenue in the Incorporated Town of Colma, State of California.

Anyone desiring further details may contact the City Clerk where a map of the area to be re-zoned and sketch of the proposed Golf Course are on file.

Dated this 22nd day of June, 1961.

BLANCHE LAGOMARSINO
City Clerk and Secretary of the Planning Commission of the Town of Colma

NOTICE TO CONTRACTORS

(Advertisement)

1. NOTICE IS HEREBY GIVEN that the Board of Trustees of the Jefferson Union High School District will receive bids for the furnishing of all labor, materials, transportation and services for grading and drainage work, relocation of utility lines, and installation of sprinklers and turf, and the necessary appurtenant work on the site of the Jefferson High School, located at 6996 Mission Street, Daly City, California, all in strict conformity with the plans and specifications and other contract documents on file at the office of FALK & BOOTH, 16 Beale Street, San Francisco, California.

2. Each bid to be in accordance with the plans and specifications now on file with Falk & Booth, 16 Beale Street, San Francisco 5, California.

3. Each bid shall be made on a form to be obtained at the office of FALK & BOOTH, 16 Beale Street, San Francisco 5, California, and must be accompanied by a certified or cashier's check or a bid bond for ten per cent of the amount bid, made payable to the order of the Board of Trustees of the Jefferson Union High School District, and shall be sealed and filed with the Clerk of the Board on or before the 7th day of July, 1961, at 2:00 P.M. and will be opened in public at or about 2:00 P.M. of that day **in the Office of the Superintendent of Schools, 375 So. Mayfair Avenue, Room 214, Daly City, California.**

4. The above-mentioned check or bond shall be given as a guarantee that the bidder will enter into a contract if awarded the work, and will be declared forfeited if the successful bidder refuses to enter into said contract within 30 days after being requested to do so by the Board of Trustees of the Jefferson Union High School District.

5. The successful bidder will be required to furnish a labor and material bond in an amount equal to 50% of the contract price and a faithful performance bond in an amount equal to 100% of the contract price, said bonds to be secured from a surety company satisfactory to the Board of Trustees of the Jefferson Union High School District.

6. The general prevailing rate of per diem wages and rates for legal holidays and overtime work in the locality in which this work is to be performed for each craft or type of workman or mechanic needed to execute the contract, has been ascertained by the Board of Trustees of the Jefferson Union High School District to be as follows:

CLASS OF WORK	WAGE PER HOUR
Building Laborers	$3.225
Multiple Engine Earth-moving Machine	4.21
Tractor Drivers	4.23
Tractor Loaders	4.54
Trenching Machine Operators	4.18
Power Shovel Operators	4.44
Power Blade Operators	4.44
Compressor Operators	3.67

7. All labor to receive time and one-half for overtime, double time on holidays, unless otherwise specified.

8. All other trades not hereinabove mentioned to receive wage prescribed for that particular craft or type of workman.

9. In addition to the hourly and/or per diem wages for the crafts, classifications or types of workmen listed above, contractors may be required to make employer payments for health and welfare, pension, vacation and similar purposes as required by the executed collective bargaining agreements for the particular craft, classification or type of work involved.

10. The working days shall be eight (8) hours unless otherwise specified above. The per diem rate shall be the hourly rate multiplied by the number of hours in the working day.

11. The general contractor and his subcontractors shall favor the employment of local labor when available.

12. The Board of Trustees of the Jefferson Union High School District reserves the right to reject any and all bids and/or waive any irregularity in any bid received and to accept the bid which in the opinion of the school board is most advantageous to the District. Unless otherwise required by law, no bidder may withdraw his bid for a period of thirty (30) days after the date set for the opening thereof.

SSF Policeman Gets Demoted For Poor Duty

A second South San Francisco police sergeant, a veteran of 14 years on the force, has been suspended for 15 days and demoted in rank to patrolman by Police Chief John Fabbri because of failure to follow departmental regulations.

Sgt. Ernest Cortez went on suspension Monday, June 19. Cortez is the second police sergeant to have been suspended during the last year. Sgt. Mario Blandini has returned to duty as a sergeant since he was suspended earlier in the year on similar charges.

According to Fabbri, Cortez failed to make adequate radio checks going in and out of service, failed to properly supervise seven patrolmen under him, and read a newspaper while on public view.

Cub Pack 343 Holds Picnic

The final meeting of Cub Pack 343 for this scouting year was celebrated with a special wiener roast held in Sigmund Stern Grove recently, under the guidance of Tony D'Acquisto.

After an excellent feast, parents and children gathered around a bonfire, where Frank Baukers led the group in a number of songs which were accompanied by Cub Scout Paul Marinko on his accordian.

Rich Schmale, father of Cub Scout Peter Schmale, is an engineer for KSFO who travels with the San Francisco Giants, so was able to give an interesting talk to the Pack members about the ball club.

Ray Squires, retiring Cubmaster, thanked the Den Mothers and the Pack Committee members, also the parents of the Cub Scouts for their help and support. He then introduced Robert Pedersen as the new Cubmaster for next September; Kevin Donovan, Sr., pack committee chairman, and Paul Salsgiver as treasurer.

SUMMER RECREATION FOR SSF; WANTED: YOUNG MEN FOR PAL

By LARRY RUIZ

South San Francisco will get a generous share of sports and recreation this summer with a full schedule of activities under the auspices of the SSF Recreation and Parks Department.

Whether it's baseball, drama workshop, tennis, and social groups or just a refreshing stroll in the park, the South City Rec people have put together a fine program.

The organized 'ball leagues are for young men from 9 to 17 years, complete with merchant sponsorship, final league champions, and clinics for instruction. Softball is offered for adult men, and in baseball four brackets are offered: 12 and under, 13 and under (city merchants), 15 and under (city merchants), and 17 and under (Peninsula-wide).

Anyone for tennis? Beginners, Intermediates, and Advanced groups are playing.

There are also numerous special events—music, creative dance, drama workshop, social dance, puppetry, arts and crafts, and boys and girls playdays and picnics. A Carnival Day at Orange Avenue Memorial Park is slated for August 17, complete with booths, parade and races.

Other activities under the SSF Parks and Recreation Department include teen age activities, senior citizens' club, childrens circle "M" Day Camp (July 3 to August 18), and preparation of picnic areas.

Further information for SSF residents can be obtained at the Recreation and Parks office, JU 8-6200.

* * *

An important annual event for Daly City sports and youth development is just around the corner—the Third Annual Daly City Police Athletic League Benefit Singles (bowling) Tournament June 24 through August 6.

Perhaps few realize that the tournament is the "one big give"—with fun and entertainment for all—in support of the Police Athletic League program in all sports.

Police Chief Roland Petrocchi relates, "The tournament started as a means of raising funds for athletic equipment.

"Before that, we would touch individual merchants to support our sports program (which includes baseball, touch football, swimming, and basketball)," the burly chief continued.

"But the bowling tourney is a good one-shot deal, and is the basis of our budget, which we always stay within. Every cent raised goes for athletic equipment.

"Our other problem is getting supervisors for the leagues.

"We've thought about football leagues—even to the point of purchasing land for a building from the San Francisco Water District (off Alemany, the south end of Westlake Playground).

There's quite a demand for football but it would cost $2000 to equipt each team . . . and there's always the problem of getting supervisors.

"We prefer adults and college students, and in the latter case it's a question of finance. Pay College students and you lose many good unpaid supervisors. And we don't have enough men in our department to really do the job.

"We can fill all the teams we can equip. What we need is a good turn-out for the tournament and young men and fathers to help coach and supervise the teams," Chief Petrocchi concluded.

Off hand, the tournament is a wonderful way to get donations. What could be a worthier cause than to give kids of our own community good recreation and training in leadership? And it's also fun for the whole family—bowling that is!

On the problem of getting young men to help these kids, how about some of our young men forming an organization just for that purpose?

How about the Westmoor, Jefferson, and Terra Nova boys' Block clubs giving a hand? A lot of you fellas use to play PAL teams. Here's a chance for you to give your knowledge on sports to these new young athletes in your town; be surprised how much value it is for your own development.

If anyone has any ideas, it's a lead pipe cinch Chief Petrocchi and Rich Brewery would be interested. Telephone the City Hall, Police Department, PL 5-4212.

Irene Mae Stuckert

Funeral services were held Monday morning at the mortuary of W. C. Laswell & Co. for Irene Mae Stuckert, 64, who died at her home recently following a short illness. Interment was in Greenlawn Memorial Park.

Mrs. Stuckert, who lived at 214 Evergreen avenue, was a native of San Francisco, Calif., and had lived in Daly City for 10 years. She is survived by her husband, George; two sons, Melvin G. and Dudley M., and two daughters, Mrs. LaVerne Mull and Mrs. Shirley D. Bidinger, and 10 grandchildren.

SPORTS

PAL Yankees Still Lead Division After 7-2 Win

The PAL Yankees continue to lead the Westmoor Division of the Daly City Recreation Department's Midget Baseball League. This week they took the scalp of the BYA Blazers, 7-2. Good defensive play by Steve Kirby and clutch pitching by Allen Stanley highlighted the game. The Blazers out-hit the Yankees but could not score the runs.

Right behind the Yankees are Toto's Midgets, making their bid for first place. They did it at the expense of BYA Art Colvin, 10-3. Steve Willey, Kevin Germano and Frank Nappi all contributed triples to the cause, to drive in 6 of the 10 runs.

The Holy Angel Lions jumped back into the win column with a big one over the PAL Giants, 14-2. Bob Wallace of the Lions rapped out 3 for 3 to take top honors in the plate department. Larry Nannini ko'ed 13 batters to come up with his third league win.

OLPH fell victim to the big bat of Pete Primiani. The defensive play of Jerry Verducci and the pitching of Helsendager —all of the Misracks Mustangs. Mustangs 3, OLPH 2 in a close one.

In the Jefferson Division of the Midget League, Hughes Texaco took two this week to hold onto the top spot. Outhit by the BYA Bullets, they came through to win, 6-2. They hit a real tough one in the PAL Redsox. To quote Coach Chuck Lee: "We were lucky, the Redsox are an outstanding team in sportsmanship and playing ability, and a real credit to Daly City." This was one of the best games of the season. Hughes Texaco 3, PAL Redsox 2.

Pitcher De Mello of Misracks Cardinals took his trip down Nightmare Alley this week as the BYA Tigers downed his team, 11-4. Nightmare Alley, this week, consisted of: Lonnie Alfano, 2 for 2; Jessie Untalana, 2 for 4, a grand slam home run included; Ray Furgoli, 3 for 3; Barry Perrone, 1 for 1 and 2 BB, and Mike Miller, 1 for 2. Should the Tigers keep up the plate work they might get a whiff of the roses. Texaco must still take the Holy Angel Colts, Parkmerced and Visitation to be home safe. Visitation may give them a real tussle.

The OLM Colts took a win over Parkmerced this week. Davis of OLM gave up only 3 hits as his team dropped Parkmerced, 7-3. Danny Daly of OLM rapped out the blow that decided the game. For Parkmerced, Bryon Bond hit 2 for 4.

In a real plate battle, Visitation edged out the BYA Bullets, 9\18. Washower of Visitation hit 3 for 4, and Rosenberg of the Bullets dittoed the feat.

Mike Krnich of D & S Lumber made hero of the week for his performance, a one-hitter shutout against the strong So. Sunset team. Krnich and company walloped So. Sunset, 5-0. Later in the week, D & S Lumber took the measure of New Pisa, 9-6. Dan Payette was the big man in that game, as he slammed out 3 for 4 with a grand slam home run included. South Sunset also edged out New Pisa, 7-5, with Jones throwing a one-hitter ball game.

Art Colvin BYA came up with a tie game this week against Misracks Juniors, 4-4. This game will be replayed at a later date. New Pisa kept their week from becoming a complete bust by dropping Art Colvin BYA, 4-2. Art Colvin BYA should present several surprises in the later summer league.

The OLM Gaels continued their climb towards the money as they downed Misracks, 10-4, and Art Colvin BYA, 7-5. OLM is developing a real machine-gun squad at the plate. They rattled hits to all fields. Torre collected 4 for 5, Pigot 4 for 7, Beltrano 3 for 5 for the two games and Williams rapped out 3 for 4 against Misracks.

Tower Market defeated the courageous BYA Falcons, 10-8. The Falcons have lost seven straight but continue to play like real sportsmen. Coach John Perry gets a real big cheer for the fine work he has done with these boys. They have shown constant improvement and they just might shoot somebody out of the saddle before the league is over.

In a wild slugfest the Falcons dropped another one to Logomarsino Juniors, 17-10.

In a big one in the standings, Daly City Drugs defeated Parkmerced, 5-3. Howel and Clayton combined their pitching talents to allow only one Parkmerced hit. The big bats of Tom Snodgrass, 2 for 2, and Dominic Tringale, 2 for 3, helped the cause. Eddie Roseboroughs return to the pitching mound should mean trouble for Parkmerced opponents in the future. If the big righthander will put the necessary time in practice, his team should spend a great deal more time in the win column.

Challenge Race Slated For Sunday At Half Moon Bay

Stiff competition for fifth position on the national eliminator list will make the drag contest at Half Moon Bay this Sunday one of the top challenge races of the year.

Challenger for fifth position honors is the Cash Auto Parts Special, a super-charged Chrysler dragster, presently unrated. Driving is Wally Allrud from San Francisco.

Defending, in the Gotelli-Champion Speed Shop Special, also a Chrysler super-charged dragster, is Ted Gotelli who has held the U. S. fifth position for 18 months.

Competitive races between the two contenders are set for 1 o'clock and 2 o'clock. If a third race is necessary for two out of three wins, a final run-off is scheduled for 3 p.m.

Gates open at 8:30 a.m. at Half Moon Bay Drag strip, 26 miles south of San Francisco on Coast Highway 1 at Half Moon Bay Airport.

Edison Trips Lincoln, 6-3, In All-Star Game

Thomas Edison's Sixth Grade All Stars defeated the Abraham Lincoln sixth graders, 6-3, in a three-inning contest held recently.

John Grey and Ken Smith each collected two hits in three trips to the plate, and Kimo Sherbert hit a double to drive in a pair of runs. Edison co-captain Mat De Bernardi made the catch of the day.

Edison's other co-captain is Ken Smith, with Val Zubuco captain of the Lincoln club.

BOWLING CHAMPS receive their trophies and awards for their high scores during a recent Trophy Winter League Banquet at the Westlake Bowl. Above are winners in the Bantam Girls League, and below are winners in the Junior Boys, Junior Girls, Senior Boys, and Peps groups.

WESTLAKE JR. BOWLERS WIN WINTER TROPHIES

Junior bowlers of Daly City competing at the Westlake Bowl finished their season recently with a trophy party, including lunch, two interesting movies and award presentations.

Receiving high game trophies were Bob Doyle, 243; Tom Cunningham, 235; Pam Witt, 209; Toni Pinelli, 207; Dave Miller, 182; Rich Leverenz, 196, and Carl Steigerwald, 258.

High series trophies went to Bill Kitchen, 345; Lynda Cowan, 361; Carl Steigerwald, 642; Bob Cowan, 609; Pam Witt, 471; Dave Miller, 327, and Bill Mulcrevy, 553.

Other bowlers receiving trophies and awards were D. Kristovich, T. Gentle, T. Neagle, M. Wille, D. High, R. Basso, R. Leverenz, B. Hood, B. Kitchen, B. Adamson, T. Mozzetti, P. Giezeker, K. Smith, G. Giezeker, M. Wille (most improved), T. Garcia, A. Shernock;

L. Cowan, K. Brown, J. Morris, C. Hollis, K. Leupp, J. Drummond, C. Navarro, R. Golobic, G. Meyer, B. James, Karen Leupp (most improved), J. McGuire, B. Perkov, D. Pollak, M. Pollak, L. Wilcox, J. Marasco, J. Zamzow, M. Lanier;

F. Blum, C. Hansen, C. Steigerwald, P. Cleary, D. Rentschler, K. Erickson, Bruce Bair (most improved), B. Cowan, J. Fisher, L. Tomassini, B. Grout, S. Hargrove, B. Doyle, D. Druhe, G. Hilton, P. Pollat, L. Westre, S. Angel, B. Balestrere, P. Biancalana, M. Oster;

G. Stanberry, Larry Barlas (most improved), M. Clark, J. Vlahovich, K. Clark, D. Daneri, M. Marconi, M. Crabb, L. DeBlassi, S. Lenehan, P. Witt, D. Herman, S. Singer, Loise Cummings (most improved), Jim Fisher, K. Grealish;

P. Buchanan, J. Drummond, T. Muskin, A. Wolford, P. Cotter, G. Rosener, J. Rosener, P. Salsgiver, J. Harris, J. Sorenson, J. Ceccacci, T. Matteucci (most improved), W. Funai, C. Acosta, A. Aceituno, G. Boscacci, T. Santos, J. Sievert, T. Wilson, B. Adamson, D. McGowan, B. Mulcrevy, L. Nejasmich, S. Nejasmich, S. Russell, Kieth Schiller.

The summer leagues are now one week old and there are many openings in all leagues.

Bowling days are Saturday at 9 a.m. and Tuesday mornings at 9:30 o'clock.

Marasco, Wilcox Even The Score With Jr. Bowlers

The very same Jerry Jackson who set new records across the nation by shooting an almost unbelievable 771 scratch series for three games in sanctioned competition across the bay, came to Westlake recently to take on two of San Francisco's top junior bowlers. Jerry brought along Gary Stevenson, another high roller from Holiday Bowl in Santa Rosa.

Before a moderate crowd of roughly 100, the Holiday pair slipped by Joe Marasco and Randy Wilcox in the doubles by eight pins. In the featured singles match between Marasco and Jackson that followed, the margin was even slimmer. Jackson finished five pins up on Joe. The return match was scheduled for June 10 at Holiday; this was to decide the winner.

The doubles match in the return meet saw Marasco and Wilcox sweep their opponents by 60 pins. Mr. Marasco averaged 212 for the four game series while posting 197-244-195-215, 851. In the all-important singles match that followed, Marasco turned in a 610 series with games of 211-202-197, Jackson turned in a respectable 220-190-168, 578.

Both Joe and Randy will graduate to ABC leagues this summer where they should create quite a commotion with their skills.

It's SPARE TIME at Westlake Bowl

More and more 600 series are being registered as the summer bowlers continue to find the range. Chris Christiansen and Ray Moore had a couple of near misses with 599 and 598 respectively, but George Pell's 627 was well over the mark while Jule Sire with 619, Pete Sheaner with 606, John Morales with 605 and Rob Nyberg with 600 even were all in the charmed bracket.

July 11 will be Bowlers Night at the Ice Follies with a busload of Westlakers taking in the 25th Anniversary show. Primo has arranged a $5.50 "package" which includes a $4 seat at the Follies, a buffet before leaving the Bowl, and round trip bus transportation. Since reservations are limited to 40, he suggests that those interested register early.

Norma Baldelli is the new Powder Puff Queen, rolling a 532 scratch series which added to her 112 pin handicap placed her first in this semi-monthly event. Last month's winner, Anita Del Campo, placed second with Betty Crowley third. The prize for high scratch game went to Betty Ostergren for her 188 game.

Rick Dreier reports that in order to equalize the opportunities of all girls, the prize awards will be revised with prizes for the two high scratch series. It is felt that in this way both high and low average bowlers will have an opportunity to win prizes.

The Family Doubles Tournament rolls on with over 100 teams entered to date. With July 30 set as the closing date, it is expected that the lead in the eight different divisions will change many times.

Co-chairmen Jane and John Doelger report all is in order for a bigger and better Police Athletic League Benefit Bowling Tournament. With the kick-off slated for noon of June 24, a goal of $10,000 has been set for the benefit of the youth of the area. Already many groups have signed to bowl together, with a special prize going to the leader of each group. It is expected that the value of the prizes to be awarded will exceed $7,000 with one prize being awarded for each ten entries. As in the past, there will be appliances, trips to Reno and Las Vegas and many other valuable awards.

Norma Baldelli is having no trouble knocking down pins. Last week in the Ladies' 635 Classics she rolled a 233 game on her way to a 569 series. Yale Field in the Southgate Mixed Fives League registered a similar game with a 585 total.

Germano Triples; Toto's Midgets In 10-3 Victory

Kevin Germano tripled with the bases loaded in the last inning to drive in the final runs as Toto's Midgets defeated the BYA-Art Colvin team 10-3 in a Midget League game played recently at Colma diamond.

With the score tied at 3-3, the Toto's batsmen shelled the BYA pitcher, Rodriguez, for seven runs in the top of the last inning.

Pitcher Mike Carper won his third start in as many games, giving six scattered hits and striking out four. Carper and Gary Ciardella each singled twice, Frank Nappi singled and tripled and Steve Willey tripled to lead Toto's 10 hit attack. Toto's leading batter, Jack Streeter, went hitless while playing the unfamiliar position of third base.

Toto's Midgets took an early lead, as Ciardella singled and scored on Nappi's triple to open the first inning. They added two more in the second when Willey tripled, scoring Steve Howe and Jeff Becker.

Errors by Toto's catcher and third baseman allowed the BYA team to score twice in the second. A double by Burdick scored Gonzales in the fourth inning to tie the score, 3-3, with five hits apiece.

Held scoreless since the second inning, Toto's men got to the BYA pitcher in the final frame for singles by Lennie Grossman, Ciardella, Carper and Nappi. A walk to Steve Gilmore loaded the bases as Germano stepped to the plate and drove the first pitch far over the left fielder's head. In this inning Toto's scored seven times on five hits, two walks, one man hit by a pitched ball and one error.

Fielding gem of the game was provided by second baseman Steve Gilmore, as he scooped up a ground ball, flipped the ball to Willey at first for one out, then over to Streeter at third to nail the runner for a double play.

OLM MEN'S GOLF TOURNEY SATURDAY; TEAMS TOLD

The seventh annual Westlake Catholic Men's Club of Our Lady of Mercy golf tournament will be held this Saturday at the Sonoma Golf and Country Club.

Sign-ups to play in the tournament are completely filled, according to co-chairmen Jim Walsh and John A. Kilday.

Trophies will be awarded to players with low net, low gross, and high gross scores.

The golf games will be followed with a barbecued steak dinner donated by the Leopard Cafe.

The starting times for the foursomes are as follows:

1) 9:18 a.m.: John Kilday, Al Swadley, Bob Frank, Jim Walsh.

2) 9:24 a.m.: Lloyd Moulton, Bob Chase, John Loof, Bob Martini.

3) 9:30 a.m.: Rubin Fuhrman, Bob White, Bill Upp, Bob Upp.

4) 9:36 a.m.: Don Welch, Dan Davis, Rod Page, Bob Hage.

5) 9:42 a.m.: Bob Foppiano, Maurie Roche, Al James, Joe Batchelder.

6) 9:48 a.m.: John Dullea, Dale Johnson, Pat Ganey, Bob Enright.

7) 9:54 a.m.: Howard Poblitz, Barry Churton, Martin Ruane, Larry McCaffrey.

8) 10:00 a.m.: Fred Waterhouse, Lloyd Madigan, Charles Seelig, John Fabianovich.

9) 10:06 a.m.: Ed Murphy, Jim Murphy, Andy Campbell, Ted Racette.

10) 10:12 a.m.: Jim Pigott, George Cathrell, Conrad Mizer, Larry Minehan.

11) 10:18 a.m.: Frank Carrol, Dick Locke, Ray Spencer, Bill Clarke.

12) 10:24 a.m.: Joe Noero, Al Ertassi, Tom Giannini, Joe Moore.

13) 10:30 a.m.: Frank Lawson, Frank Ingalls, Bob Gilmore, John Davis.

14) 10:36 a.m.: Randy Spieth, Jack Irvine, Norm Burglin, Ed Phillips.

15) 10:42 a.m.: Dick Dwyer, Ed O'Donnell, Al Antroccali, Al Sereni.

10:48 a.m.
Starters Time

16) 10:54 a.m.: Bob J. Hunter, Hal Tosetti, Charles Wester, Ed Molkenbuhr.

17) 11:00 a.m.: Jim Diggins, Jerry Mahoney, Tom Duffy, Paul Hoyorka.

18) 11:06 a.m.: Jim McGowan, Joe Hamblin, Charles Poetzel, John Crowley.

19) 11:12 a.m.: Tony La Stella, Bob De Vincenzi, Charles Santuccio, Harry Fanucci.

20) 11:18 a.m.: Frank Kelly, Charles Willin, Walt McElroy, Paul Hupf.

21) 11:24 a.m.: Jack Murphy, Ernie Cookston, Dave Geoffrian, Jim Duryea.

22) 11:30 a.m.: Herb Luders, Bob Collins, Carl Davis, Tenny Campbell.

11:36 a.m.

23) 11:42 a.m.: Ed Glischinski, Bob MacCreery, Jerry Moore, George Rauen.

24) 11:48 a.m.: Hal Thompson, Bill Cardiel, Lou Peirano, Ray Salvoni.

25) 11:54 a.m.: Roy Pasini, Jack Scherer, Bill Kenzler, Don Beauchamp.

26) 12:00 Noon: Jim Davis, George Rossi, Tom White, Pete Markovich.

27) 12:06 p.m.: Jim Vlahovich, Sil Haberer, Louis De Salvatore, Dick Cress.

28) 12:12 p.m.: Dario Baciocco, Ed Cuevas, Frank Kelechava, Chas. Boerio.

Baseball School Set For Westmoor Friday, June 23

The Examiner Baseball School is to hold a session for Daly City boys, 13 years of age and under, at Westmoor High School. This session will be held this Friday from 10 a.m. to 12 noon.

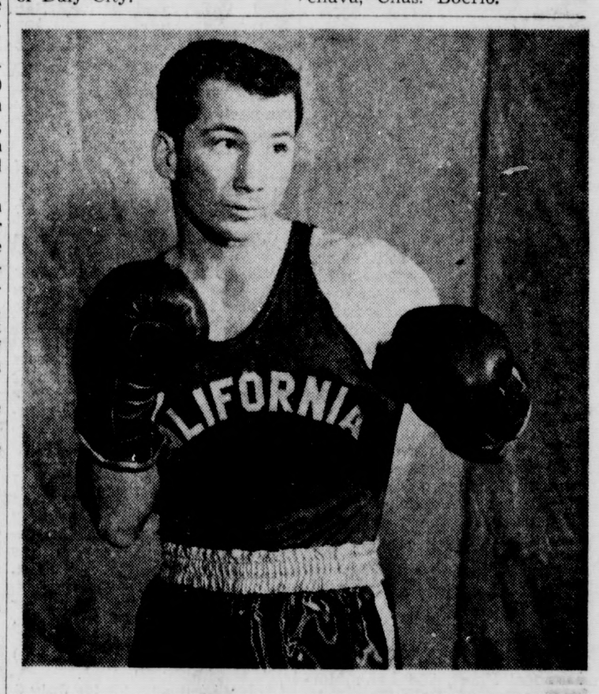
Oscar Vitt, one-time manager of the Cleveland Indians, will direct the free baseball school. Assisting him will be Augie Galan, former Pacific Coast League manager, who spent 15 years in the majors as player and coach; Con Dempsey, former star pitcher with the San Francisco Seals; Bob Fatjo, baseball coach of Bellarmine Prep School, and Milt Axt, baseball coach at Poly High School in San Francisco.

This school session will give Daly City boys a great opportunity to pick up tips on the skills of baseball from these outstanding coaches. Baseball school is conducted in co-operation with the Daly City Department of Recreation.

Bob Massei Serving On USS Kearsarge

The 41,000 ton anti-submarine warfare support aircraft carrier USS Kearsarge is operating as the basic anti-submarine unit of the mobile Seventh Fleet in the Western Pacific.

Serving aboard the carrier is Robert A. Massei, aviation ordnanceman third class, USN, son of Mr. and Mrs. Cecil J. Massei of Daly City.



DON RICCI of Daly City is a recent graduate of the University of California and may probably be the last four-year varsity letter-winner in a single sport ever to graduate from the Berkeley campus. Boxing was the last sport to drop freshmen for varsity competition, and Ricci delayed his eligibility with a two-year stint in the Marine Corps. He gained his fourth varsity boxing letter during graduation recently and it appears he may be the last of an honored few. Ricci's father, Tony, is secretary-treasurer of Daly City Local 808, Beer Drivers' and Salesmen's Union.

HOME IMPROVEMENT... OUTDOOR LIVING...

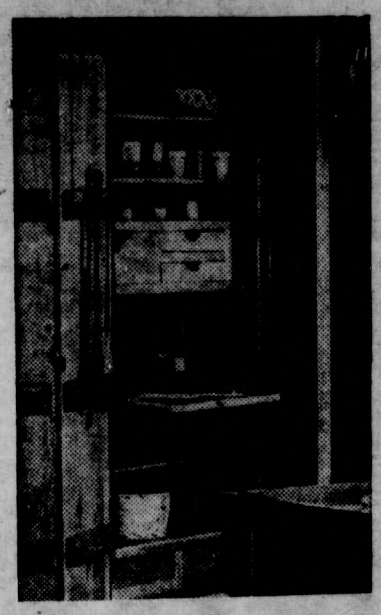
SUMMER HOME IMPROVEMENT SUPPLEMENT

PUBLISHED BY MARCHBANKS PUBLICATION

Check the pages of this Home Improvement and Outdoor Living Section for Hundreds of New Ideas, for a comprehensive selection of services and products you will need to complete your favorite project. Visit the Reliable Firms represented in this Section for Up-to-Date Products and information on all phases of Home Improvement . . . indoors and out.

WALL OF BUILT-INS provides generous storage facilities and housing for hi-fi equipment, and at the same time dresses up the area through the use of paneling of western pine derivation.

SEWING CENTER folds away into wall when not in use. One-section contains drawers and storage space, fold-out ironing board, fold-out work table, cabinet for scrap materials; the other a slide-out sewing machine table, racks of patterns, accessories. Made primarily of Weldwood Korina Plywood.



BUILT-INS to store barbecue gear and other equipment of outdoor living are a great convenience; built here on patio side of house.

THINNING ODORLESS PAINT

Don't make the error of thinning odorless paint with ordinary solvents such as turpentine. This only replaces the odor the manufacturer has gone to the trouble of removing. Instead, use the special odorless thinners available for such paints.

BEAUTIFUL VISTA has been created in this garden walk setting by well-thought-out plantings of colorful flowers and shrubbery happily highlighted by the stark white of the bark of the birch trees. Photo courtesy of American Association of Nurserymen.

Stainless Steel Plays Lead Role In The Modern Kitchen

The kitchen of 1961 is practical as well as glamourous. This trend began during the servant shortage of the past few years, when the mistress of the house took to the kitchen herself. Once in the kitchen, however, she rapidly discovered that glamour wasn't enough. Now she wanted the materials that were the easiest to clean and the most difficult to scratch, stain or mar. She wanted appliances that were built in such a way that they were both convenient and out of the way.

Stainless steel answered many of these needs. Literally as strong as steel, it is almost impossible to wear out or dent. Its non-porous surfaces resist rust and stains and make it the easiest metal to clean. It is the same material throughout; hence, it will never chip or wear out.

One of the greatest kitchen revolutions took place in the kitchen sink, which developed from one bowl to two or three, acquired a built-in garbage disposal, a pivoting, splashless faucet that reached all bowls, a fitted vegetable basket, a separate shallow bowl for soaking vegetables or fruits, corner drains to eliminate the risk of glassware tipping, built-in power units with outlets for food mixer, blender and knife sharpener and often a heavy cover of either stainless or wood which fitted one bowl, converting it into either a giant ice bucket or a place to store course three while course two was being served.

Homeowners Get Annual Urge To "Spruce Up"

As inevitable as the blooming of the first flowers of Spring is the home-owner's urge, at this time of year, to spruce up his property, give it a fresh "new look" inside and outside, make necessary repairs and other improvements.

So universal is this movement, that March marks the beginning of the season that has become known throughout the country as "Clean-Up, Paint-Up, Fix-Up Time."

Following the ravages of winter weather, this is indeed the most logical time of the year for the home-owner to take a long and hard and very critical look at his property, and determine what steps should be taken, not only to make it look better and serve his family better, but to maintain and, if possible, enhance its value.

Protect Investment

The home represents the largest single investment that the average family is ever likely to make. Sturdily constructed though it may be, it is continually subject to attacks from many quarters which can weaken it and threaten the home owner's investment unless preventive measure are taken.

Winds tug at and loosen shingles. Rains probe for entry. Mortar crumbles and boards decay. A house, which expands in warm sunlight and contracts in the chill night, is like a living thing which must be cared for.

Developing dangers the average homeowner can watch for and combat have been listed by the Construction Research Bureau, national clearing house for building information. Alertness can forestall serious damage and keep the value of your property at peak levels.

Repairs Check List

Check these trouble spots:

Exterior walls: Masonry. Loose mortar between joints should be scraped out and replaced, pressing fresh mortar in firmly. Broken brick, stone or tile should be chiseled out, new unit pressed into fresh mortar.

Wood Useful In Dressing Up Grounds

There have been many new wrinkles in outdoor accessories since the standard summer house with its latticed sides and center tea table was all the rage. The vogue for informal outdoor entertaining now means barbecue pits, outdoor activity centers, indoor-outdoor gardens, and semi-permanent installations for outdoor serving.

The possibilities for these semi-permanent projects in most any yard are virtually endless. Sunshades offering protection from the elements — and a decorative flavor, too — are highly practical and lend themselves to design ingenuity on the part of the homemaker. They can be vertical or horizontal, or overhead, depending upon the kind of protection or decorative effect needed.

Fences can be made to perform a dozen different useful functions — from wind shield to privacy insurance. Other possible projects include such useful articles as cross-legged picnic tables, benches, lawn chairs, lounges, and specially designed "outdoor living kits" allowing safe out-of-door storage for utensils and tools used in such living.

Most of these can be built in home workshops. Your local retail lumber dealer can be most helpful, both in working out ideas and in selecting the materials to be used in them.

Because of their fine workability, sturdiness and — when properly treated — long life, the woods of the Western Pine region are popular for outdoor projects. Long life for any species of wood can be insured by treating all parts of posts and boards under or in contact with the ground, as well as exposed post and board ends. A pentachlorophenol preservative is recommended.

Another important consideration in the planning of outdoor living areas is drainage. When selecting placement of traffic and use centers, "high and dry" is the keynote. Low ground is often moist, while high ground will usually be relatively dry.

Lower Costs Spur Pools Construction

Ride down any suburban street and you won't be aware of the change. But fly over the same area and you'll see what is happening. Carefully hidden behind fences and shrubbery, winking like emeralds and sapphires, are countless backyard swimming pools, a large percentage of them brand new. In all the years up to 1948 a mere 2500 home pools were built in the United States but in 1960 alone more than 45,000 were installed.

It has become possible for almost any homeowneer who is regularly employed to have one, since pools which a few years ago cost $10,000 to $20,000 can now be had for less than the price of a new car.

New Constructions

New methods of construction have made the difference. Old-style pools were usually poured concrete. The introduction of Gunite pools, made by spraying concrete out of a hose, started prices downward. Then prefabricated pool made of fiberglass, aluminum and steel added the savings of assembly-line methods. One of the biggest price-busters has been the plastic liner. Fabricated to shape and size of desired pool, these giant, one-piece heavy-gauge plastic coverings make any supporting structure watertight. Thus pools can be built of unorthodox materials — wood or concrete block, for example — which of themselves might not hold water.

For easiest swimming and lowest cost per square foot, the rectangular pool is usually the best bet. The minimum practical width for a pool is 15 feet, and if you want a springboard and a wading area, a pool should be at least 35 feet long.

Sizing the Pool

To size your pool in relation to the number of people who will use it, allow 36 square feet of water for each swimmer, and 100 square feet for every diver. The average depth 20 x 40-foot pool with diving board in use will accommodate 14 people at a time.

A three-foot walk should surround the pool, and at the springboard or deep end it should extend back about nine feet. Particularly well suited for these areas are the smaller size ceremic tiles generally called mosaics. Mosaic tiles are practical for this use because of their slip-proof nature.

For the sun deck or terrace often built around outdoor pools, quarry tile is favored.

CLEAN OIL FLAME

Today's heating oil is a highly refined, smooth burning fluid. It burns completely and spotlessly clean in a sealed combustion chamber.

USE RIGHT SCREWDRIVER

Three sizes of screwdrivers are all the home handy man needs for most jobs around the home. Using the correct size for each job eliminates chewing up screws and the tool.

VALVE IDENTIFICATION

Avoid confusion when an emergency requires gas, water, or other valves to be quickly shut off. Locate the various valves now, and mark with identifying tags.

PAINT STORAGE

A thin surface of turpentine prevents left-over paint from skinning over when stored. Let it float on top by running it down a small stick. Don't shake it.

Careful Planning Is Vital In Landscaping Pool Areas

Landscaping the pool area must be carefully planned, if best results are to be obtained. All too often, shrubs, trees and ornamental bushes are placed haphazardly with little thought given to plant habits. In order to give pool owners a handy guide to proper landscaping of their pool areas, here are a few basic rules that can be very easily followed.

The more attractive and hearty evergreens suitable for screening and high hedging around the swimming pool are Hemlock, Canadensis, Taxus Cuspeda Capitada, Ilex Crenata Microphylla, Ilex Cornuta and Arbovitae. For low hedging, it is suggested that the pool owner choose among Taxus Hatfieldi, Taxus Hicksi or Andromeda.

Deciduous flowering shrubs may be used for a low-cost effective summer screen, but should be planted well back from the pool, as the dropping of leaves and flowers will add to the chore of keeping the pool clean. This includes flowering trees also. These trees, also planted well back from the pool area, are most effective for screening from second story windows or higher-level property surrounding the pool.

ATTRACTIVE landscaping sets off this backyard swimming pool to excellent advantage and provides a welcome measure of privacy. Attention to landscaping can add much to enjoyment of pool; this one by Lancer Pools Corp.

A good choice for these ornamental trees are: Pink or White Dogwoods, European Mountain Ash, White Birch, Flowering Crab Apple, Japanese Willow and a great variety of others.

Flowers should never be planted close to the pool because they attract bees and other flying insects that can be a nuisance, and spent flowers will fall into the pool on windy days. Flowers have an important usage as background setting though.

Ordinary banks may be turned into beautiful rock or ledge gardens with a generous sprinkling of perennials for permanent settings, but a liberal amount of annuals should be included for color. These can be selected from Verbena, Petunias, Phlox, Marigold, Ageratum or Sweet Alyssum.

Some of the better annuals that can be included are started in the greenhouse and are most desirable for planting in hilly areas, For example, Geraniums, Fuschias, Begonias, Lantanas and Calias. In shaded areas, owners should select from Tuberous Begonias, Gloxemas and flat or creeping evergreen.

Many swimming pool installations require fencing and these installations can well be brightened with vine type plants. There are countless varieties that can be used, but a selection from Clematia, Trumpet, Vine, Wisteria and Rambler are most economical and most effective.

GLUE WARMER

To keep glue warm for easier flow and better results, you can pour it into a tin can and let it stand in water inside a baby's bottle warmer.

Laundry Center Can Appear Almost Anywhere In Home

Upstairs, downstairs, in the hall closet, the family room or even the bathroom — you never know where the modern homemaker is going to place her laundry center. In terms of convenience, time and labor saving, any one of these locations is ideal for a laundry, according to the Maytag Home Service department.

With the neat, handsome design of today's automatic washers, dryers or combination washer-dryers, the only real limits in selecting a location are adequate plumbing facilities and space.

The kitchen has already been established as a popular spot, for convenience and simplified installation, but this doesn't mean that other locations can't be as practicable.

The family room is another popular choice, especially in one-story homes. Plan the laundry area at one end of the room, preferably near existing plumbing connections. If you add sliding doors, a screen or similar decorating device, the units can easily be concealed when not in use.

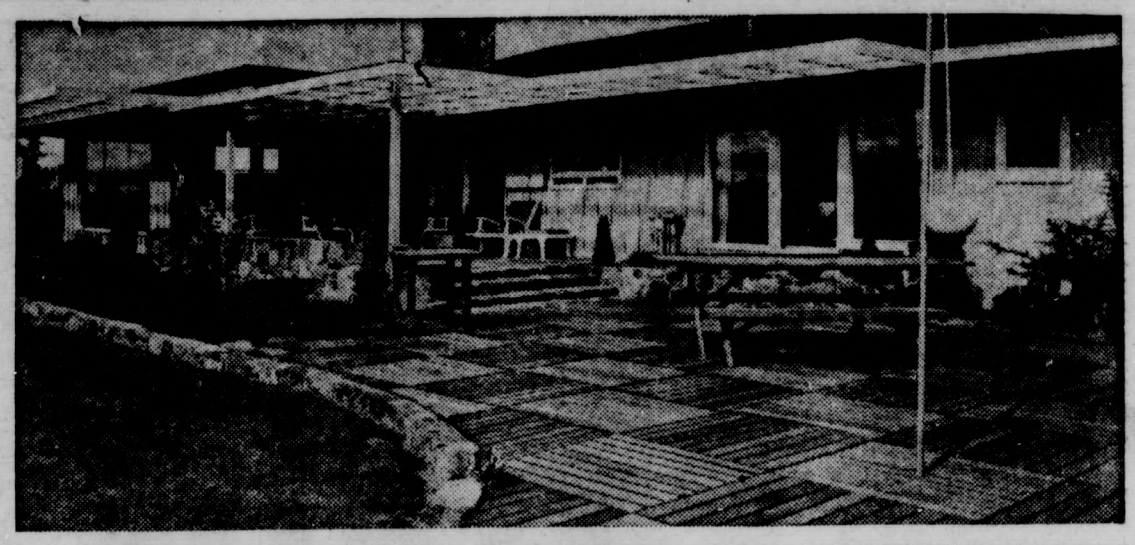
Another popular arrangement is a separate utility room. This is particularly good if space is no problem, for it allows room for ironing, sewing and other related activities in one central area.

In the two-story home, upstairs is a convenient location since it saves needless stair climbing. The bathroom — if it is large enough — is a good choice. Plumbing is handy and cabinet space can be easily added.

Older homes often have wasted hall space, large closets or small unused bedrooms — all of which can be easily converted into a laundry.

VARNISHING FLOORS

Quickest way to varnish large floors is to pour out a small pool and spread it around with a roller.



DECORATIVE Parquet flooring of Penta-treated Douglas Fir gives a touch of distinction to this outdoor living area. The do-it-yourselfer will find patio flooring easy to lay out. It's economical, too, because most lumber yards have "shorts" for sale at bargain prices.

CLEAN WINDOWS

To prevent below-ground basement windows from being splashed with mud and dirt in heavy rainstorms, dig out three or four inches of soil and replace with an equivalent amount of clean gravel.

Outdoor Fireplace Can Be A Do-It-Yourself Project

Although barbecues can be prepared on portable grills, a permanent fireplace will make your yard a real center for warm-weather hospitality. Make the construction of the fireplace a family project and you'll have as much fun building a using it.

Here, from R. T. French home economists, are some pointers on building it:

1. Locate your outdoor fireplace so that it faces in the direction of the wind. This will provide a better draft and carry smoke away from front.

2. Select a high spot or small mound for its location to provide for natural drainage.

3. Solid base support is essential, so the foundation should be made of concrete. Where subject to frost, the concrete foundation should extend about four inches below frost line. Where not subject to frost, a firm bed of gravel or cinders will do.

4. Choose the type of material that harmonizes with your home. Brick, stones and concrete blocks are widely used for a variety of settings. If ordinary field stones are used, be sure they are the least porous types to prevent cracking from moisure and freezing.

5. The firebox, flue, and other inner areas in contact with flame and heat should be lined with firebrick to avoid chipping and other damage from temperature changes.

Here, too, are some tips to follow when barbecuing:

1. Build your fire early enough so that it will have burned down to coals by the time you are ready to cook the meal.

2. Oak, maple, and other hard woods produce long-lasting coals. Soft pine and similar woods are satisfactory for quick grilling. Charcoal provides intense, steady heat and lasts longer, making it highly desirable for broiling.

3. Keep the fire near the front of the grill for cooking meat. There will be enough heat at the back of the grill for making coffee and keeping foods warm.

TO MEASURE PIPE

To get the outside diameter of a piece of pipe, tighten a monkey wrench lightly around it. Slide the wrench off without loosening the set of the jaws. The distance between the jaws is an accurate measurement of the diameter of the pipe.

USE RIGHT SCREWDRIVER

Three sizes of screwdrivers are all the home handy man needs for most jobs around the home. using the correct size for each job eliminates chewing up screws and the tool.

Americans' Backyard A Recreation Center

Americans in growing numbers are beginning to "get away from it all" simply by stepping outdoors into what used to be just the back yard. Today the difference is plain to see. The back yard has become a recreation area.

No matter what it's called, it is being used to increase warm weather fun and add entertainment space to the house. The ash can and the clothes line have given way to the swimming pool, the terrace and the outdoor grill.

These frequently become do-it-yourself projects for the whole family, and provide almost as much fun in the construction as in later enjoyment.

Swimming pools, once envied by many and owned by few, bid fair to become as common as a second car. Individually designed pools can be tailored to fit any area. Improved construction techniques for standardized shapes and sizes have brought the cost of pools well within the average budget.

Wading Pools

Above ground wading pools of vinyl-impregnated nylon held rigid by sections of steel mesh are a reasonable compromise. They come in sizes up to 30 feet in diameter and four feet in depth, providing fun for grown-ups as well as children.

Patios or terraces of flagstone, concrete or tile are being used for entertainment areas that extend the serviceability of the indoor living room.

Enclosing the patio with roofing and screening can make it more private and impervious to summer insects. Low-key lighting, simple furniture and a few large plants, make the patio an ideal place for late dining or TV viewing. An adjacent outdoor grill perks up appetites and simplifies meals.

Among the games that are being enjoyed in back yards are badminton, paddle tennis, volleyball, basketball, deck tennis, archery, horseshoes, croquet, darts, lawn-bowling, shuffleboard and variations on lawn golf.

All-Purpose Court

An ideal back yard set-up is an all purpose, hard-surfaced court for such sports as paddle tennis, deck tennis, and junior volleyball. A shuffleboard court can be painted on almost any concrete driveway.

Sand boxes are great fun for the very young. A suitably situated garage makes a fine backstop for handball or for hanging a basketball hoop.

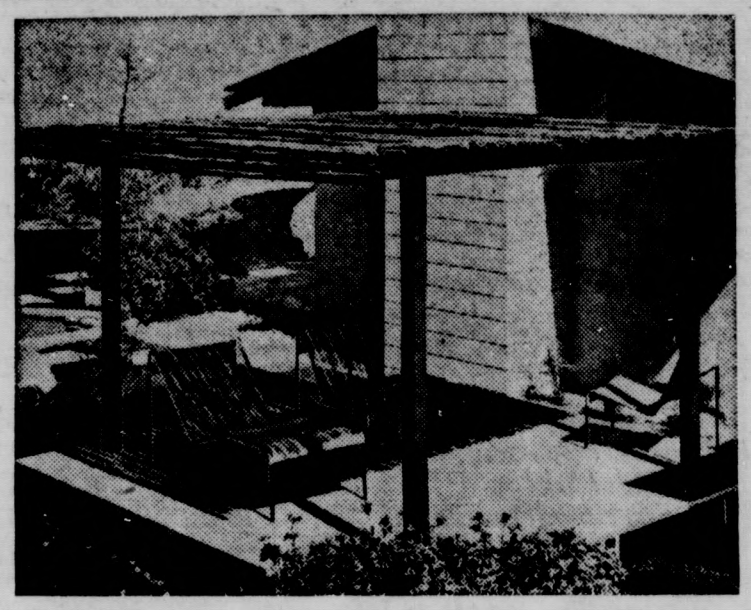
The golfer can devote an occasional hour at the end of the day to improving his "short game" with nothing more elaborate than a tin can sunk in the lawn. This may also serve as the focus for a "clock-golf" set up.

Croquet is enjoying a revival and requires only an expanse of reasonably smooth lawn. Additional bounce is being given outdoor sports by the sudden popularity of trampolines.

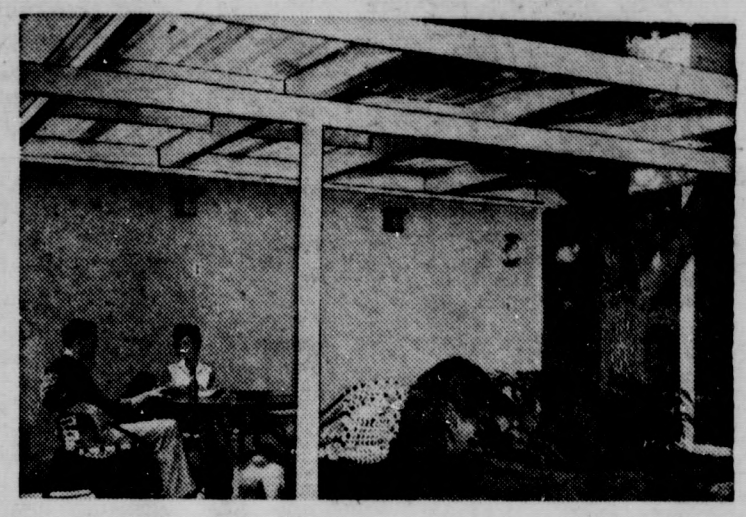
Imaginative Gardening

For gardening enthusiasts, with or without a green thumb, there is no limit to the extent the imagination or talents can reach. Rock gardens, splashy summer flowers, bulbs and shrubs can be beautiful projects for warm weather enjoyment. A small section of the garden can be set aside for the children to cultivate or used to grow herbs.

At night, outdoor illumination is often practical for lawn games, and carefully placed hurricane lamps or small spotlights focused on flowering plants will add beauty.



OUTDOOR living deck like this is especially useful for a sloping tract of land. Inlaid red cedar and incense cedar of the Western Pine region are two woods which are well suited to exterior construction because of their natural resistance to decay and weathering.



BY PLANNING PATIO to face west and using translucent fiberglass roofing, full advantage is obtained of the additional light of the setting sun in the late afternoon. Photo by Filon Plastics Corp.

MIXING PLASTER

To avoid lumps when mixing plaster, put water into the container first and then add the powder to the water.

Family Fun Room Requires Durable Floor Covering

"Trouble free" is the number one requirement for all materials used in the family fun room.

A popular choice for flooring is resilient rubber or solid vinyl. Since the colors go all the way through in these high quality floorings, they withstand wear and tear of dancing feet, spilled glue from the hobby activities, dents from small fry pull toys, spilled drinks and other hazards common to a heavy traffic room devoted to family recreation.

Both rubber and solid vinyl flooring may be considered as structural components which last for the life of the building.

It is easy for the do-it-yourself enthusiasts to install either rubber or solid vinyl in interesting designs. By creating special areas of activity through out the resilient tile design, the home owners can achieve not only a feeling of greater spaciousness in the recreation room but also localize activities of different members of the family, for example.

Creating a shuffleboard or checkerboard pattern as part of the design of the family room floor is another way to increase the play value of the rubber or solid vinyl flooring.

These resilient tiles are easy to cut in special shapes so a custom design is well within the talents of an amateur home decorator.

When you lay a rubber or solid vinyl floor, it is winning strategy to order a few extra tiles and use them as a decorative topping for a game table.

NEW CABINET LAVATORY

A practical way to beautify your bathroom or powder room is by the installation of one of the new lavatory-cabinet combinations. The vitreous china lavatory, obtainable in white or pastel colors, is fitted into a cabinet which provides ample and conveniently located storage space for towels and toilet articles.

HANDY HOLDER

A strip of cellophane tape, sticky side up, holds any number of parts from small assemblies that must be saved for a short time.

TIPS ON HOW TO....

BRIGHTEN YOUR HOME

through the friendly services of

Daly City Scavenger Co.

HOLD SECTIONALS TOGETHER

Metal hooks and eyes, attached to the back of sectional furniture, keep the furniture from sliding apart. Hooks and eyes can be placed in the back side of legs of sofas and cabinets.

STORAGE SPACE PROBLEMS ARE OFTEN SOLVED BY BUILT-INS

Big home or little home, large household or small, there is hardly a family that can say it has adequate storage space. The lack may be general — from attic to the basement — or it may be confined mainly to certain rooms, such as kitchen, bathrooms, or family room.

Lumber and lumber paneling are ideal for creating built-ins to correct the lack of storage facilities, for lumber will fit into any decorative scheme and it is economical and easy to work with. This is especially true of softwoods and some of the most readily available are the species that grow in the western pine region.

Built-ins naturally should be appropriate to the room. This sounds elementary, but it takes some planning and forethought to work out the sort of built-ins that will do the best job in a specific situation.

For example, storage space in a kitchen should be co-ordinated with work areas. Drawers and cabinets should be planned to hold heavy equipment below counters and cupboards to contain lighter items should go above. Consideration should be given, too, to space for mixers, toasters, blenders and other small appliances that a housewife may not wish to keep out all the time.

In a bathroom — even in a small one — there usually is space to box in the area under the basin. This will provide room for towels, extra soap and bathroom tissue, and perhaps also for bulkier things such as hot water bottle. If the bath room is fairly good-sized, the cabinets may be built on the wall to hold these supplies, medicines and other necessities.

A family room, of course can provide storage space for myriad belongings. These may include movie and slide projection equipment, card table and game supplies, hobby materials, and radio-phonograph equipment. Space also might be set aside in this room to display a collection of old china and glass, athletic trophies or, perhaps, prized examples of art objects.

Wall Outlets Can Let Out Precious Heat

Spots often neglected by do-it-yourselfers who install insulation in a wall during an attic conversion or remodeling project are the spaces behind electrical outlets and wall switches.

When insulation is not installed snugly around and behind the metal receptacles that

To install insulation properly at electric outlet box, strip vapor barrier from batt or blanket and fit insulation snugly around and behind box to cover all gaps.

When mineral wool is in place, staple vapor barrier carefully over insulation. Using razor blade, cut out piece of vapor barrier to expose outlet box. Mineral wool is fireproof and doesn't conduct electricity.

accommodate switches and outlets, heat escapes through them like steam from the spout of a boiling teakettle.

The photographs show how the job should be done to be most effective.

ILLUSION MIRRORS

Long mirrors hung vertically in a room tend to add height to the ceiling, while large rectangular mirrors mounted on the wall give the feeling of width and spaciousness.

Insulation Keeps Heating Fuel Bills Down

Installed in recommended amounts, insulation keeps heating fuel bills down, lessons the cost of air conditioning and makes a house more comfortable throughout the year.

What's more, good insulation never wears out and adds to the resale value of any home throughout its lifetime.

When enough mineral wool is installed in walls, ceilings and other areas where needed it reduces heat loss sharply. This enables the home owner to save as much as 40 per cent on heating fuel.

In summer, the proper amount of mineral wool insulation helps to keep heat outside the house which results in greater comfort inside.

A significant saving is realized by using sufficient insulation when a house is to be air conditioned. Tests prove that adequately thick mineral wool insulation installed where needed cuts down the size of cooling equipment required and its operating costs.

New Designations

Practically all mineral wool manufacturers have switched from the old method of classifying their products by inches of thickness to a system of "R" designations. "R" means "resistance to heat flow out of a house in winter or into it in summer." Instead of describing what the insulating material is, the "R" factor tells what its effect will be after it is installed. The greater the "R" number, the more effective the insulation.

For a comfortable, well insulated house, batts or blankets of mineral wool marked R-19 should be put in ceilings, R-11 in walls, and R-13 in floors.

Other insulation materials are made of rock wool, glass, slag, paper pulp, gypsum, asbestos, cork, aluminum, foils, vermiculia, cotton and other vegetable and mineral matter.

Insulating a house also can be a do-it-yourself project. During remodeling or before a new home is completed, it's a comparatively easy matter for the home handyman to place batts or blankets of mineral wool between studs in walls or between ceiling joists.

How To Proceed

Here are some basic rules to observe for a god insulating job:

1. Use insulation of proper "R" factor in al exposed walls, ceilings, and floors over unheated areas.

2. Trim the insulation a bit larger than the space it is to cover, leaving a flange of vapor barrier at each end. With a very sharp knife or blade, cut along a piece of board or straight edge.

3. Fit the insulation wool between joists, studs or rafters with vapor barrier overlapping the wood framing members at the end of the space. The barrier should be toward the side of the house that is heated in winter.

4. Nail or staple the flange to the wood at the end of the space, and along the facing side of the joist, rafter or stud.

5. Wedge the next batt or blanket against the end of the first one.

6. Do not ignore small spaces, as they greatly reduce the insulation's efficiency if left uncovered.

7. If in doubt about the proper "R" number, get the higher one, for the slight extra cost will pay for itself in comfort and savings.

An existing home can be fully insulated with mineral wool without damage to walls or ceilings by having the insulation blown into inaccessible areas.

This job is done by an insulation contractor who has the necessary equipment. Loose mineral wool is blown through a flexible hose into all cracks and corners and around all pipes and wires. The siding removed to insert the hose nozzle is replaced carefully after the walls are tightly filled. Ceilings are done by bringing the hose through an attic window.

HANDY ROLLER

A strip of cellophane tape, sticky side up, holds any number of parts from small assemblies that must be saved for a short time.

AVOID FURNITURE RUST

Apply varnish to screw holes in furniture before inserting screws. This seals out moisture, prevents rust stains from forming.

LIGHT UP For Better Business

- MORE CUSTOMERS -- People prefer modern stores with well-lighted fronts and display windows.
- MORE SALES -- Customers buy more from well-lighted merchandise displays.
- MORE PRODUCTION -- In store, office or plant, employees work better, produce more and make fewer mistakes in comfortable, well-lighted work areas.

Grow spectacular Roses!

Tests like this prove roses respond beautifully!

ORTHO Liquid Rose Food gave spectacular results in 5 week test: more blooms . . . longer, stronger stems . . . more luxuriant growth. Plant on left received just 5 feedings of Liquid Rose Food. Plant on right, grown in same rich soil, was watered only.

● DESIGNED SPECIFICALLY FOR ROSES

ORTHO Liquid Rose Food is a specially balanced formula that fills the particular nutrient needs of roses. That's why it makes such spectacular differences in roses! Improves growth fast, too, because it's a liquid, readily absorbed by both roots and foliage. A chelating agent releases soil minerals for additional plant nourishment.

SPRAY OR SPRINKLE. Mix ORTHO Liquid Rose Food in water as label directs, sprinkle on soil and foliage with watering can. Easier yet, apply with ORTHO Lawn Sprayer attached to garden hose.

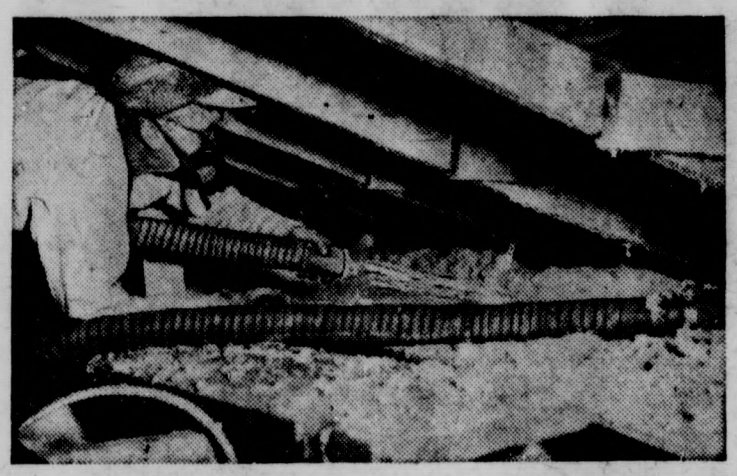
JOE'S NURSERY

COLMA: 140 DUNKS ST., PL 5-8382

DALY CITY: 1020 SOUTHGATE AVE., PL 6-9282

Skyline Plaza Shopping Center

INSULATING ceiling of addition to home, do-it-yourselfer makes sure that bats of mineral wool are securely stapled to joists to provide unbroken vapor barrier.



PNEUMATIC EQUIPMENT is used to force mineral wool insulation into attic floor of home. An installation such as this can reduce heating costs by as much as 40 per cent, make house more comfortable year round.

LUMBER SAVINGS

Check to see if your dealer has a bargain section where end-pieces, mill "rejects" and similar economy-type lumber are displayed. Substantial savings can often be effected this way.

PAINT SYSTEM

To keep stairway in use while it is being painted, split the painting job into two halves. Do every other step the first day. Allow this to dry overnight and paint alternate steps the next day.

More Bathroom Space Needed?

In the growing family, lack of privacy and irritating wash-up priorities can emphasize the need for more bathroom space. An unprofessional view of the home may fail to uncover available space for an additional room. But the plumbing contractor, with his years of experience in these matters, can often utilize an area under the stairs or adapt a closet which, with the right fixtures, can be another bathroom or powder room.

In adding a new bathroom or modernizing an old one, the question of "right fixtures" is an important one. Today there are many important readily available which can fit the exact space and decor requirements for the large bathroom and for the smaller room, fixtures especially suitable for adults, and others for children. Style and color variations are numerous, as are the very important factors of durability, quality and brand names.

Corner Tub Favored

The corner bathtub has long been a favorite in remodeling schemes where existing wall structures are left intact. The fre finished side of the corner fixture makes it adaptable to walls that extend beyond its length.

Many modern designs are now available in corner models. One example is the recently-introduced Contour bathtub which features a spacious non-symmetrical bathing area.

The decorating possibilities with the corner model are very attractive. The free end of the bathtub can be equipped with a towel ladder emphasizing the towel colors used in the bathroom scheme.

Wide Range Of Cooling Equipment Available For Modern Homes

Homeowners can now select from a wide range of cooling equipment for their homes.

Since each house is different, air conditioning engineers have designed a variety of cooling systems so that air conditioning can be adapted to any style house.

Most cooling systems, says the Better Heating-Cooling Council, can be added to a house at any time. Consideration must be given, however, to the type of heating in the house.

In a warm air heated house, either combination heating-cooling systems or cooling systems that operate independently of the heating system may be selected:

Heating-Cooling Dust System, for warm air heated houses, uses a furnace and a cooling unit, usually installed in the basement. Warm air and cool air are circulated through the same duct system. It's important, however, that ducts are accurately sized because those used only for cooling are usually wider than ducts used for heating.

In homes with hot water heating systems, combination heating-cooling systems or independent cooling systems may be selected:

Combination System

Heating - Cooling Convector System, for hot water heated homes uses combination units installed in each room of the house but powered from a central source — a boiler and a water chiller, usually installed in the basement.

Hot water and chilled water are circulated to the units through the same piping system. Each convector unit has a fan, filter, cooling heating coil and a thremostat for room by room temperature control.

Separate Chilled Air Unit, for use with any type heating system, functions independently of the heating system. This central cooling system is suitable for new construction or modernization in small or medium size homes.

The cooling unit can be installed in unused attic space, garage, basement or a centrally located closet or hal, with fibre-type ducts, distributing the cool air. Cooling registers, or outlets, are usually located in the ceiling of each room.

Chilled Water Unit

Separate Chilled Water Unit, for use with any type of heating system, also functions independently of the heating system. This is a central cooling system that is suitable for new construction or modernization, but especially for multi-story or rambling designs in which zone control is desirable.

In this system a single cooling unit, remotely located in the basement, for instance, sends chilled water through small pipes to two or more heavy duty convectors, each serving a different area or different floor of the house. Each heavy duty convector has an individual temuperature control.

HOMEOWNER installing mineral wool batts in addition being erected over unheated garage fits insulation snugly against sill.

WITH SHARP KNIFE, do-it-your-selfer carefully cuts vapor barrier flange of batt, which protects insulation against moisture.

STAPLE GUN is most effective tool for use in installing mineral wool insulation. Vapor barrier flange is stapled to edge of floor joist.

NEVER PAINT AGAIN!

MICA-SEAL WATERPROOFING

... the key to positive protection

GUARANTEED FOR 12 YEARS

Resurfaces, Waterproofs, Paints and Beautifies— ALL IN ONE OPERATION!

★ 22 Colors to Choose From
★ No Sandblasting Necessary
★ Insulates—Seals Cracks
★ Doesn't Chip or Peel
★ Resurfaces—Resists Corrosive Salt Air
★ Fire Resistant
★ Eliminates Painting Worries
★ Termite Proof
★ Dry Rot Proof

WE prepare building surface for application of MICA-SEAL.
WE carefully tape all windows
WE cover all shrubs and plants
WE apply MICA-SEAL water-proofing in the color of your choice, using our specialized equipment.
WHEN WE LEAVE OUR WORK AREA IT'S COMPLETELY SPOTLESS!

More Cooling Power In Air Conditioners

A great deal of the news in room air conditioners this year appears to be on the "inside," with manufacturers concentrating their efforts on increasing capacity and lowering noise levels. Thus, while the dimensions of room air conditioners have changed very litlte from a year ago, comparable-size 1961 models may deliver from 500 to 2,000 BTU's per hour more cooling than their predecessors.

In addition, almost every unit contains controls which allow the user a choice of fan speeds and resulting air velocities (the major reason for air conditioning noise). The most significant advance in this area is an infinite fan speed control, similar in concept to the infinite heat settings on electric ranges, which permits an almost unlimited selection of fan speeds.

Convenience Features

Push-buttons; automatic temperature controls and timing devices; adjustable air directors; and easily-cleanable, easily-replaceable filters are some of the convenience features which distinguish 1961 room air conditioners.

These assure the homeowner of the proper balance of dehumidification, air circulation, air filtration, and ventilation which combines with the air conditioner's basic cooling function to produce a true feeling of comfort during hot weather.

Some special units are made specifically for casement windows and through-the-wall installation, but the majority of room air conditioners can be installed in almost any type of window by means of the manufacturer's installation kit (supplied with the unit.)

Through-the-Wall

Through-the-wall installations, which leave windows free and position the unit almost flush with walls, can be accomplished in less than a day by qualified air conditioning conditioning contractors.

For do-it-yourselfers, easy-mount models which can be installed by the homeowner are particularly appealing. These units incorporate a frame with sliding side panels designed to fit in the window's sash track.

Completing the 1961 room air conditioning picture are Heat-Pump units, which both cool and heat. While in more temperate areas of the country heat pumps are widely used for complete home heating and cooling, window-size heat pumps should also be considered for enclosed porches and other hard-to-heat areas.

STRAIGHTEN DRILLS

To straighten very small drill bits, which have become bent, sandwich them between two flat pieces of hardwood, press down as hard as possible while sliding the blocks back and forth so that the drill bits roll around between them.

"BASEBOARD HEATING"

Summer is the ideal time to make changes and improvements in the heating system. One of the improvements which can conveniently be made in the summer is the replacement of radiators with heating baseboard.

FIRST STEP (right) in installation of this air-conditioner is application of supporting sil brackets. Lifting unit's case into the window, sliding conditioner's chassis into case, lowering window, pulling side panels into window's sash track (above) complete job. Easy-Mount air conditioner by General Electric.

How To Reduce Operating Costs Of Cooling Systems

Want to cut down electric bills that rise every summer because your air conditioning units are continuously operating?

Here are several ways you can get the best performance out of your cooling system at the lowest possible operating cost:

1. Keep shades or venetian blinds pulled to prevent sun's rays from coming into the house.

2. Keep windows and outside doors closed to curb cool air from escaping from the house.

3. Keep storm windows in to prevent warm outside air from coming into the house.

4. On cool nights, turn off air conditioning units and open windows.

5. When landscaping, arrange tree plantings to keep house cool by shading it from sun's rays.

6. When re-roofing, choose a lightcolored roofing material. This will retard heat from penetrating the house.

7. Weather-strip around outside doors and windows to prevent cool air from "leaking" from the house.

8. Have automatic clothes dryer vented to the outdoors; the discharge of moisture into the indoor air makes the air conditioner work overtime.

. . . If you do not have a **Homeowner's Policy,** you are letting money slip right through your fingers. Buy the peace of mind wrapped up in this insurance protection at a **saving of up to 20%.** We will give you the details —no obligation!

Pre-Fabricated Shower Cabinets Easy To Install

Backyard vacations can be fun this summer if you follow backyard sun baths and picnics with a cool, refreshing shower.

The sandbox crowd and also the garden gang all will have a good time if carefree days in playtogs are followed by a relaxing shower.

Thanks to new developments in the plumbing industry, it's easy to have a shower almost anywhere. Available are sturdy cabinets which constitute self-contained showers.

These pre-fabricated shower cabinets come in a variety of sizes. They are shipped knocked-down so they can easily be assembled in cramped quarters.

Pre-fabricated shower cabinets are ideal for installation in basements, utility rooms, and odd spaces in the house.

These metal cabinets are shipped with shower heads and valves so they constitute a complete leak-proof shower cabinet when assembled.

There are utilitarian models for basements and utility rooms and deluxe cabinets for other locations in the house.

JESD Adopts Calls For $3,

Jefferson Elementary School District trustees, Monday night, adopted a tentative budget for the 1961-62 school year of $3,861,689. This is an increase of $380,000 over the budget in operation for the fiscal year which concludes Friday.

Trustees set August 7 at 8 p.m. for a public hearing on the budget. Should all go well, following the budget hearing, the trustees hope to adopt it as final.

Reason for the increase—the highest ever for the district—is due to an expected increase of 600 students, teachers' salaries, equipment and maintenance costs. District Supt. Richard Foster estimates that approximately $120,000 of the $380,000 increase will go toward paying teachers' salaries.

The 1960-61 budget, now nearing its last days, totals $3,481,-072, which up until this year's budget had been the highest.

The new budget is based on a tax rate of $2.37 per $100 assessed valuation.

In other actions the board hired four more teachers and two administrators, accepted the resignation of Mrs. Wilma House and Mrs. Nancy Pace, and released Gwen Campbell and James Larkin from their 1961-62 teaching contracts.

Revised and approved its maternity leave policy.

Approved the preliminary plans for the Lake Merced overpass.

Granted maternity leaves to Mrs. Patricia Dimond and Mrs. Barbara Schustak.

Adopted the third draft of the board policy handbook.

Accepted a gift of $200 from the Abraham Lincoln PTA and also a framed portrait.

Accepted a plaque from the American Institute of Architecture for an honor award for the Fernando Rivera School, and Foster was directed to send a letter of thanks to Mario Ciampi and American Institute.

Instructed Foster to develop a statement making it possible for the board, should it desire, to revise salaries for all employees after July 1 of the 1961-62 school year.

Instructed Foster to send letters to the Department of Finance telling them that the board was abandoning the Portola School site and the Thornton School site.

Jefferson High T Approve Tentativ

Trustees of the Jefferson Union High School District Monday night put their final approval on a tentative budget amounting to $2,983,191, an increase of $521,734—or nearly one-half million dollars—over the present budget of $2,461,-457.

The budget will go to the County Superintendent of Schools for study, and the same budget will undoubtedly be published with little change. A public hearing must be held before adoption, which is expected sometime in early August.

Reasons for the boost in the budget are the operation and maintenance of a brand new high school, plus an additional boost in money output for teachers' salaries, allowing for necessary increments and the hiring for more teachers to meet expected student enrollment, which is expected to jump by some 600 pupils.

The new budget, as have previous budgets in the past few years, is based on a tax rate of $1.37 per $100 assessed valuation, and what with opening a new high school (Terra Nova), Dist. Supt. Edward Morgan calls it a "remarkable tight budget." Trustees have been working diligently over the past weeks in an attempt to "shave" expenditures down to the "very bone," allowing output for only those items "absolutely felt
